Perspectives On Mobility Spatial Practices:

Global Perspectives on Gender and Space Ann Oberhauser, Ibipo Johnston-Anumonwo, 2014-03-21 Feminism has reshaped the way we think about equality power relations and social change Recent feminist scholarship has provided new theoretical frameworks methodologies and empirical analyses of how gender and feminism are situated within the development process *Global Perspectives on Gender and Space Engaging Feminism and Development* draws upon this framework to explore the effects of globalization on development in diverse geographical contexts It explores how women s and men s lives are gendered in specific spaces as well as across multiple landscapes Traveling from South Asia to sub Saharan Africa to North America and the Caribbean the contributions illustrate the link between gender and global development including economic livelihoods policy measures and environmental change Divided into three sections *Global Perspectives on Gender and Space* showcases the following issues One the impact of neoliberal policies on transnational migration public services and microfinance programs Two feminist and participatory methodologies employed in the evaluation of land use women s cooperatives and liberation struggles and Three gendered approaches to climate change natural disasters and conservation the global South A feminist lens is the common thread throughout these sections that weaves gender into the very fabric of everyday life providing a common link between varied spaces around the globe by mapping gendered patterns of power and social change This timely volume provides geographic comparisons and case studies to give empirically informed insights on processes and practices relevant to feminism and development It illustrates ways to empower individuals and communities through transnational struggles and grassroots organizations while emphasizing human rights and gender equity and will be of interest to those studying Geography Development Studies International Relations and Gender Studies

Reimagining Mobilities across the Humanities Lucio Biasiori, Federico Mazzini, Chiara Rabbiosi, 2023-01-31 Volume 1 *Theories Methods and Ideas* explores the mobility of ideas through time and space and how interdisciplinary theories and methodological approaches used in mobilities studies can be profitably utilised within the humanities and social sciences Through a series of short chapters mobility is employed as an elastic inclusive and multifaceted concept across various disciplines to shed light on a geographically and chronologically broad range of issues and case studies In doing so the concept of mobility is positioned as a powerful catalyst for historical change and as a fruitful approach to research in the humanities and social sciences Like its sister volume this volume is edited and written by members of the Centre for Advanced Studies in Mobility and the Humanities MoHu at the Department of Historical and Geographical Sciences and The Ancient World DiSSGeA of the University of Padua Italy The structure of the book mirrors the *Theories and Methods and Ideas* thematic research clusters of the Centre Afterwords from leading scholars from other institutions synthesise and reflect upon the findings of each section This volume together with Volume 2 *Objects People and Texts* makes a compelling case for the use of mobility studies as a research framework in the humanities and social sciences

As such it will be of interest to students and researchers in various disciplines

Passages. Architecture for Flowing and Connecting Spaces Nicolò Chierichetti, Raffaella Cavallaro, 2025-09-01 Ceci n est pas une conf rence sur la mobilit As infrastructures of movement often prioritize technical efficiency they risk neglecting the qualitative and experiential dimensions of space an oversight that architectural thinking is distinctively positioned to address Architecture offers a special perspective to address this gap particularly in light of SDG 09 Industry Innovation and Infrastructures and SDG 11 Sustainable Cities and Communities and in reference to the principles of the EAAE Charter By engaging with mobility through a transversal approach the conference explores how architectural design can contribute to reimagining spaces to overcome functionalist engineering limitations also considering the ecological climate and social impacts of mobility spaces as something more than mere built objects Through the examination of design methodologies and prototype case studies the conference attempts to unveil the potential of architectural design and research tools to enrich unconventional discussions about mobility in urban and peri urban contexts its spatial configurations and experiential qualities Although mobility is intended as a framework the discourse will focus on the spaces above below in between and to the sides of the ordinary boundaries of architectures of flow as well as on the spaces of new forms of movement The conference Passages Architecture for Flowing and Connecting Spaces invited contributions which critically address the role of Architecture in the Shaping the spaces of mobility and in their interference around the sessions of Intersection Collateral and Evolution

Understanding Mobilities for Designing Contemporary Cities Paola Pucci, Matteo Colleoni, 2015-12-08 This book explores mobilities as a key to understanding the practices that both frame and generate contemporary everyday life in the urban context At the same time it investigates the challenges arising from the interpretation of mobility as a socio spatial phenomenon both in the social sciences and in urban studies Leading sociologists economists urban planners and architects address the ways in which spatial mobilities contribute to producing diversified uses of the city and describe forms and rhythms of different life practices including unexpected uses and conflicts The individual sections of the book focus on the role of mobility in transforming contemporary cities the consequences of interpreting mobility as a socio spatial phenomenon for urban projects and policies the conflicts and inequalities generated by the co presence of different populations due to mobility and by the interests gathered around major mobility projects and the use of new data and mapping of mobilities to enhance comprehension of cities The theoretical discussion is complemented by references to practical experiences helping readers gain a broader understanding of mobilities in relation to the capacity to analyze plan and design contemporary cities

Space Odysseys Jørgen Ole

Bærenholdt,Kirsten Simonsen,2017-05-15 The nature of spatial imaginations has become central to a range of major social and political debates Narratives on spatial inequality from the North South divide in global economic and political visions to marginalisation and ghettoisation in Western cities appear regularly in our daily newspapers Such examples indicate that issues of space spatiality are as crucial in our current societies as never before Space Odysseys brings together leading social scientists including John Urry and Derek Gregory to address a number of central issues in spatiality and social relations in the early 21st century Starting from the presupposition that space is a social dimension and a social construct it then presents examples of these conceptions of space at work While the book title s indirect reference to the film 2001 A Space Odyssey indicates the contributors interest in questions of voyages and mobility the plural use shows that the approaches to this conceptual exploration are multiple reflecting differences in experience in social context and or in gender class and ethnicity The book is divided into three main sections The first explores issues of mobility immobility and embodied narratives the second section deals with territoriality mobility and identity politics and the final section concludes with chapters on the spatial production of knowledge

Distance Matters Lotta Frändberg, 1998 **Perspectives on Mobility** Ingo Berensmeyer, Christoph Ehland, 2013-08-01 Literature as cultural discourse has always courted mobility From the nomadic wanderings of the heroes of Homer and Virgil through the adventures of the medieval knight errants to the travellers of modern times movement and mobility have been constitutive elements of story telling Since writers have begun to explore the experiential dimension of movement their texts have embraced the essential changeability and instability of mobile worlds In this sense literature reflects and processes the transformative force of movement on the perception of the world and is part of the broader cultural discourses of mobility From the 1936 film *Night Mail* to the rapid movements of the dime novel detective and the metaphorical coding of automobility in Futurist poetry the essays in this volume offer new perspectives on the phenomenon of mobility at the intersection between the literary imagination and cultural experience They explore movement as a decisive force of change in the story of modernity and show how literature in its representation of mobility simultaneously aims both to mirror and to grasp the phenomenon *Theory, Method, and Practice in Modern Archaeology* Robert J. Jeske, Douglas K. Charles, 2003-03-30 This book presents 18 essays by leading scholars covering mortuary analysis the archaeology of foraging and agricultural societies cultural evolution and archaeological method and theory which transcend the processual

postprocessual debate in archaeology and provide examples of how archaeologists think about and go about studying the past As archaeology encounters the 21st century debate over the nature of the discipline dominates professional discourse Archaeologists are embattled over isms processualism postprocessualism scientism and humanism are ubiquitous buzzwords in the literature Yet archaeology is a craft practiced by individuals learned from and influenced by other individuals Sometimes a person through sheer force of intellectual spirit rises above the debate to make a mark on the field in ways that cross out schools paradigms and factions It is fitting to look back at the influence one such individual has had on archaeological methods theory data collection and syntheses over the last half century This volume draws on the experience of students and colleagues who worked with and were strongly influenced by James A Brown s approach to the past The volume is divided into five categories each reflecting one distinctive facet of Brown s affect on archaeology mortuary analysis foraging and horticultural societies complex agriculturalists proto historic and historic societies and method and theory These diverse categories with articles by archaeologists of many backgrounds are drawn together by the threads of Brown s intellectual legacy Not all authors here are in agreement with Brown s views on their subjects but all acknowledge that his work in the area sets a standard that needs to be met if one is to succeed
