Jung and the Alchemical Imagination Jeffrey Raff,2000-11-15 Jung and the Alchemical Imagination illustrates the spiritual nature of Jungian psychology and the debt it owes to the tradition of esoteric religion Unlike other books on Jung and alchemy which contain a psychological interpretation of alchemical material this work uses alchemy to understand the three cornerstones of Jungian spirituality the self the transcendent function and active imagination Through the interpretation of alchemical imagery Raff explains the nature of these three concepts and illustrates how together they form a new model of contemporary Western spirituality This book is also unique in selecting alchemical texts for analysis that are relatively unknown and which for the most part have never been interpreted In addition he presents two new concepts the ally and the psychoid realm Through the addition of these ideas and the new understanding that they offer it is possible to apply alchemical imagery to transpsychic experience that is to a world of spirits

which may not be reduced to psychological concepts By including this realm in the study of alchemy and Jungian thought it is possible to gain insights into the nature of visionary and ecstatic experiences that form part of the path of individuation the road to completion

The Secret Astrology of the Bible Michael Ledo,2010-05-02 *The Secret Astrology of the Bible* by Michael Ledo is a landmark book that will change the way the scholarly community and the general public views the Bible history and myth Epic in scope this provocative book explores the connections between religious belief and cosmic theory even as it attempts to explain contradictions and irregularities in the text The Bible states Ledo was constructed as a living document with much of its text expanded as time went on If readers stripped away this added material they could actually be left with an Early Bronze Age text over a thousand years older than what is currently accepted by scholars This text suggests Ledo would be a veritable cosmic myth which follows the constellations with stories in a contiguous fashion that combine both history and myth Originally sold as *On Earth as it is in Heaven The Cosmic Roots of the Bible*

The Oxford Handbook of W.B. Yeats Lauren Arrington,Matthew Campbell,2023-05-30 The forty two chapters in this book consider Yeats's early toil his practical and esoteric concerns as his career developed his friends and enemies and how he was and is understood This Handbook brings together critics and writers who have considered what Yeats wrote and how he wrote moving between texts

and their contexts in ways that will lead the reader through Yeats's multiple selves as poet playwright public figure and mystic. It assembles a variety of views and adds to a sense of dialogue the antinomian or deliberately divided way of thinking that Yeats relished and encouraged. This volume puts that sense of a living dialogue in tune both with the history of criticism on Yeats and also with contemporary critical and ethical debates, not shirking the complexities of Yeats's more uncomfortable political positions or personal life. It provides one basis from which future Yeats scholarship can continue to participate in the fascination of all the contributors here in the satisfying difficulty of this great writer.

Classical Myth in Four Films of Alfred Hitchcock Mark William Padilla, 2016-09-30 *Classical Myth in Four Films of Alfred Hitchcock* presents an original study of Alfred Hitchcock by considering how his classics informed London upbringing marks some of his films. The Catholic and Irish English Hitchcock (1899-1980) was born to a mercantile family and attended a Jesuit college preparatory whose curriculum featured Latin and classical humanities. An important expression of Edwardian culture at large was an appreciation for classical ideas, texts, images, and myth. Mark Padilla traces the ways that Hitchcock's films convey mythical themes, patterns, and symbols, though they do not overtly reference them. Hitchcock was a modernist who used myth in unconscious ways as he sought to tell effective stories in the film medium. This book treats four representative films, each from a different decade of his early career. The first two movies were produced in London: *The Farmer's Wife* (1928) and *The Man Who Knew Too Much* (1934); the second two in Hollywood: *Rebecca* (1940) and *Strangers on a Train* (1951). In close readings of these movies, Padilla discusses myths and literary texts such as the *Judgment of Paris*, the *Homeric Hymn to Demeter*, Aristophanes's *Frogs*, Apuleius's tale of *Cupid and Psyche*, Homer's *Odyssey*, and the *Homeric Hymn to Hermes*. Additionally, many Olympian deities and heroes have archetypal resonances in the films in question. Padilla also presents a new reading of Hitchcock's circumstances as he entered film work in 1920 and theorizes why and how the films may be viewed as an expression of the classical tradition and of classical reception. This new and important contribution to the field of classical reception in the cinema will be of great value to classicists, film scholars, and general readers interested in these topics.

Music and Culture in the Middle Ages and Beyond Benjamin Brand, David J. Rothenberg, 2016-10-27 It has become widely accepted among musicologists that medieval music is most profitably studied from interdisciplinary perspectives that situate it within broad cultural contexts. The origins of this consensus lie in a decisive reorientation of the field that began approximately four decades ago. For much of the twentieth century, research on medieval music had focused on the discovery and evaluation of musical and theoretical sources. The 1970s and 1980s, by contrast, witnessed calls for broader methodologies and more fully contextual approaches that in turn anticipated the emergence of the so-called New Musicology. The fifteen essays in the present collection explore three interrelated areas of inquiry that proved particularly significant: the liturgy, sources, musical and archival, and musical symbolism. In so doing, these essays not only acknowledge past achievements but also illustrate how this broad interdisciplinary approach remains a source for scholarly innovation.

Atlantic Crossing in the Wake of Frederick Douglass Mark Leone, 2017-03-06 Atlantic Crossings in the Wake of Frederick Douglass takes its bearings from the Maryland born former slave Frederick Douglass's 1845 sojourn in Ireland and Britain a voyage that is understood in editors Mark P Leone and Lee M Jenkins collection as paradigmatic of the crossings between American African American and Irish historical experience and culture with which the collection as a whole is concerned In crossing the Atlantic Douglass also completed his journey from slavery to freedom and from political and cultural marginality into subjective and creative autonomy Atlantic Crossings traces the stages of that journey in chapters on literature archaeology and spatial culture that consider both roots and routes landscapes of New World slavery subordination and state sponsored surveillance and narratives of resistance liberation and intercultural exchange generated by transatlantic connectivities and the transnational transfer of ideas Contributors Lee M Jenkins Mark P Leone Katie Ahern Miranda Corcoran Ann Coughlan Kathryn H Deeley Adam Fracchia Mary Furlong Minkoff Tracy H Jenkins Dan O'Brien Eoin O Callaghan Elizabeth Pruitt Benjamin A Skolnik and Stefan Woehlke **Approaching Silence** Mark W. Dennis, Darren J. N. Middleton, 2015-02-26 Shusaku Endo is celebrated as one of Japan's great modern novelists often described as Japan's Graham Greene and Silence is considered by many Japanese and Western literary critics to be his masterpiece Approaching Silence is both a celebration of this award winning novel as well as a significant contribution to the growing body of work on literature and religion It features eminent scholars writing from Christian Buddhist literary and historical perspectives taking up for example the uneasy alliance between faith and doubt the complexities of discipleship and martyrdom the face of Christ and the bodhisattva ideal as well as the nature of suffering It also frames Silence through a wider lens comparing it to Endo's other works as well as to the fiction of other authors Approaching Silence promises to deepen academic appreciation for Endo within and beyond the West Includes an Afterword by Martin Scorsese on adapting Silence for the screen as well as the full text of Steven Dietz's play adaptation of Endo's novel *The Emblematic Queen* D. Barrett-Graves, 2013-05-07 This study examines representations of early modern female consorts and regnants via extra literary emblematics such as paintings jewelry miniature portraits carvings placards masques funerary monuments and imprese **Dismantling the Master's Clock** Rasheedah Phillips, 2025-01-28 A radical new treatise on time quantum physics and racial justice from world renowned artist and advocate Rasheedah Phillips of Black Quantum Futurism Dismantling the Master's Clock is a groundbreaking debut work that synthesizes philosophy and the history of science with Black cultural traditions speculative fiction and Phillips's own art practice to argue for a more equitable access to time and the future While some processes like aging birth or car crashes seem to occur in only one direction of time by the apparent logic of the universe human consciousness should experience time both backwards and forwards Though past and present organize our lives like unarguable fact the physicists who study time are much less certain Linear time is an illusion explains Rasheedah Phillips a construct even science contests It is based more on Western history and systems of social order than on nature or the variety

of human existence Both indigenous African conceptions of time and quantum physics recognize how the past present and future act upon and modify each other Afrodiasporic identity is itself a time traveling phenomenon in which the past is always present Phillips unfurls time s legacy of racial oppression from maritime navigation for colonial expansion and the timekeeping methods of plantation overseers to the establishment of Greenwich Mean Time and the Western Scramble for Africa time has been a homogenizing project of the last few centuries Phillips unsettles dominant assumptions of space and time highlighting how Black communities have long subverted these through alternative temporal frameworks Unlocking the Poetry of W. B. Yeats Daniel Tompsett,2018-06-13 Unlocking the Poetry of W B Yeats undertakes a thorough re reading of Yeats oeuvre as an extended meditation on the image and theme of the heart as it is evident within the poetry It places the heart at the centre of a complex web of Yeatsian preoccupations and associations from the biographical to the poetic and philosophical to the mythological and mystical In particular the book seeks to unlock Yeats mystifying aesthetic vision via his understanding of the ancient Egyptian Weighing of the Heart ceremony The work provides a chronological narrative arc that looks to use the theme of the heart as it recurs in the poetry in order to circumvent and overcome more established frameworks Its purpose is to offer refreshing ways of conceptualizing and building alternatives to more deeply entrenched but not entirely satisfactory arguments that have been offered since Yeats death in 1939 while demonstrating the centrality of the occult to Yeats art
