Norman, 2015-09-15 The use of nonviolent action is on the rise From the Occupy Movement to the Arab Spring and mass protests on the streets of Brazil activists across the world are increasingly using unarmed tactics to challenge oppressive corrupt and unjust systems But what exactly do we mean by nonviolence How is it deployed and to what effect Do nonviolent campaigns with political motivations differ from those driven by primarily economic concerns What are the limits and opportunities for activists engaging in nonviolent action today Is the growing number of nonviolence protests indicative of a new type of twenty first century struggle or is it simply a passing trend Understanding Nonviolence Contours and Contexts is the first book to offer a comprehensive introduction to nonviolence in theory and practice Combining insightful analysis of key theoretical debates with fresh perspectives on contemporary and historical case studies it explores the varied approaches aims and trajectories of nonviolent campaigns from Gandhi to the present day With cutting edge contributions from leading scholars and practitioners in the field this accessible and lively book will be essential reading for activists students and teachers of contentious politics international security and peace and conflict studies **Political Violence and Oil in Africa** Zainab Ladan Mai-Bornu, 2020-06-08 The book argues that in order to better understand the undercurrents of the Niger Delta conflict it is imperative to analyse the dynamics of choice in terms of the distinct courses of action taken by the Ogoni and Ijaw Given the similar structural constraints the author considers why the Ogoni adopted nonviolent resistance and the Ijaw violent resistance This book is divided into seven chapters starting with an introduction to oil and political violence in African conflicts and includes a synoptic overview of four other resource rich countries in Africa Theoretical and conceptual underpinnings of conflict are then presented with the aim of situating the Niger Delta conflicts within the wider conflict literature Chapter Three

concentrates the discussion on the Nigerian Niger Delta outlining the core issues at the centre of the contestations The following three chapters offer an in depth empirical analysis on the interaction between the narratives on nonviolence versus violence the nature of leadership styles and the organisation of the Ogoni and Ijaw movements along with a concluding chapter

Civil Resistance Michael Randle,1994 Government can only function with the co operation or at least the compliance of the population Compliance may be secured by the threat or use of force but excessive repression can erode a regime s authority lead to economic stagnation and provoke rebellion and possibly the imposition of international sanctions Eventually a repressive regime may forfeit the support of its power base and the loyalty of the army police and civil service It will then no longer have the means to enforce compliance Civil resistance employs strikes boycotts civil disobedience and so forth to undermine the opponents authority and sources of power It may have the revolutionary aim of overthrowing a regime or the more limited objective of securing reform It has been used to overthrow colonial rule and repressive regimes and to resist occupation and military coups It has been used too in parliamentary democracies in struggles for civil rights opposing preparations for nuclear war and other goals Civil resistance took on a new dimension with the coming of industrialisation in the 19th century Today due to the communicationst revolution the expansion of further education and the integration of the global economy its potential has again increased exponentially as the People Power successes of the 1980s and 1990s have demonstrated It could play a crucial role in establishing and consolidating democratic societies and defending them against internal and external threats It could also figure in preparations for national defence as a substitute for or complement to military preparations
