Persecution And Toleration In Protestant England 1588 1689 Study In Modern History Series:

Selling Cromwell's Wars Nicole Greenspan, 2015-10-06 Greenspan examines a selection of Cromwell's conflicts, policies and imperial ventures to explore the ways in which the media was instrumental in developing, promoting and legitimizing government actions.

The Re-Attribution of the British Renaissance Corpus Anna Faktorovich, 2023-05-02 The first accurate quantitative re-attribution of all central texts of the British Renaissance. Describes and applies the first unbiased and accurate method of computational linguistics authorial attribution. Covers 303 texts with 8,106,059 words, 123 authorial bylines, a range of genres and a timespan between 1510 and 1662. Includes helpful diagrams that visually show the quantitative matches and the identical most frequent phrases between the texts in each linguistic signature group. Detailed chronologies for each of the six ghostwriters and the bylines they wrote under, including their dates of birth, death, publications and other biographical markers that explain why each of them was the only logical attribution. A full bibliography of the 303 tested texts. All of the raw and processed data, not only in summary tables inside of the book but also in full on a publicly accessible website: <https://github.com/faktorovich/Attribution>. One table includes all of the data from the first edition: title pages, byline, printer, bookseller, date, proverbs and the first performance date, troupe. A table on structural elements across all Shakespeare bylined texts summarizes their plot movements, character types, settings, slang usage, primary sources and poetic design, percentage of rhyme and hendiadys. To explain why these are the first truly accurate re-attributions, numerous reasons for discrediting previous attribution claims are provided throughout. *Re-Attribution of the British Renaissance Corpus* describes a newly invented for this study computational linguistics authorial attribution method and applies it and several other approaches to the central texts of the British Renaissance. All of the attribution steps are described precisely to give readers replicable instructions on how they can apply them to any text from any period that they are interested in determining an attribution for. This method can be applied to solving criminal linguistic mysteries such as who wrote the Unabomber Manifesto or theological mysteries such as if any of the Dead Sea Scrolls might have been forged by a modern author. This method is uniquely accurate because it uses 27 different quantitative tests that measure a text's dimensions and its similarity or divergence to other texts automatically without the statisticians being able to skew the outcome by altering the experiment's analytical design. *Re-Attribution* guides researchers not only on how to perform the basic calculations but also how to perform the biographical and documentary research to derive who among the potential bylines in a single signature group is the ghostwriter while the others are merely ghostwriter, contractors or pseudonyms. Reliable accuracy is achieved by also performing other types of attribution tests to check if these alternative approaches validate or contradict the 27 tests' findings. Non-quantitative tests discussed include deciphering the hidden implications of contemporary pufferies as well as comparing structural elements such as characters, plot and element borrowings. Part II presents a revised version of the history of the birth of the theater in Britain by reviewing forensic accounting evidence in

Philip Henslowe's Diary and the documented history of homicidal lending practices and government corruption connected with troupes and theaters Parts III VIII explain precisely how this series derived that the British Renaissance was ghostwritten by only six linguistic signatures Richard Verstegan Josuah Sylvester Gabriel Harvey Benjamin Jonson William Byrd and William Percy The parts on each of these ghostwriters not only explain how their biographies fit with the timelines of the texts being attributed to them but also provide various types of evidence that explains their motives for ghostwriting And Part IX returns for an intricate analysis of a few pseudonyms or ghostwriting contractors who were uniquely difficult to exclude as potential ghostwriters in parallel these chapters question the reasons these individuals would have needed to purchase ghostwriting services The complete series on British Renaissance Re Attribution and Modernization by Anna Faktorovich is a remarkable accomplishment Based on her own unbiased method of computational linguistic authorial attribution she has critically examined an entire collection of texts many previously inaccessible and untranslated to modern English From a variety of distinct factors that have been ignored or unnoticed in the past she identifies a group of ghost writers behind many miss attributed Renaissance works Of particular interest are works traditionally attributed to William Shakespeare Dr Faktorovich is a prolific writer very well informed in English literature philology and literary criticism and she is clearly thorough and detail oriented Her re attribution and modernization series demonstrates solid scholarship fresh perspective and willingness to challenge conventional thought and methodology Midwest Book Review Lesly F Massey December 2021 I have long had an interest in linguistics and enjoy reading the frequent Who really wrote Shakespeare's works Therefore this book was extremely interesting to me So my recommendation is that if you have an interest in linguistics and scholarly research you will love this book Very interesting and well laid out book LibraryThing Early Reviewers February 2022 Anna Faktorovich PhD is an English professor who previously published Rebellion as Genre and Formulas of Popular Fiction She is also the Director and Founder of Anaphora Literary Press

Topographies of Tolerance and Intolerance Marjorie Elizabeth Plummer, Victoria Christman, 2018-08-07 Topographies of Tolerance and Intolerance challenges the narrative of a simple progression of tolerance and the establishment of confessional identity during the early modern period These essays explore the lived experiences of religious plurality providing insights into the developments and drawbacks of religious coexistence in this turbulent period The essays examine three main groups of actors the laity parish clergy and unacknowledged religious minorities in pre and post Westphalian Europe Throughout this period the laity navigated their own often fluid religious beliefs the expectations of conformity held by their religious and political leaders and the complex realities of life that involved interactions with co religious and non co religious family neighbors and business associates on a daily basis Contributors are James Blakeley Amy Nelson Burnett Victoria Christman Geoffrey Dipple Timothy G Fehler Emily Fisher Gray Benjamin J Kaplan David M Luebke David Mayes Marjorie Elizabeth Plummer William Bradford Smith and Shira Weidenbaum

The Oxford Handbook of Literature and the English

Revolution Laura Lunger Knoppers, 2012-11-29 This Handbook presents a comprehensive introduction and thirty seven new analytical essays on the issues contexts and texts of the English Revolution Offering textual literary critical historical and methodological information the volume exemplifies new and diverse approaches to revolutionary writing and maps out future avenues of research

The Eye of the Crown Kristin M.S. Bezio, 2022-08-19 This volume discusses the development of governmental proto bureaucracy which led to and was influenced by the inclusion of professional agents and spies in the early modern English government In the government s attempts to control religious practices wage war and expand their mercantile reach both east and west spies and agents became essential figures of empire but their presence also fundamentally altered the old hierarchies of class and power The job of the spy or agent required fluidity of role the adoption of disguise and alias and education all elements that contributed to the ideological breakdown of social and class barriers The volume argues that the inclusion of the lower classes commoners merchants messengers and couriers in the machinery of government ultimately contributed to the creation of governmental proto bureaucracy The importance and significance of these spies is demonstrated through the use of statistical social network analysis analyzing social network maps and statistics to discuss the prominence of particular figures within the network and the overall shape and dynamics of the evolving Elizabethan secret service *The Eye of the Crown* is a useful resource for students and scholars interested in government espionage social hierarchy and imperial power in Elizabethan England

Persecution and Toleration in Protestant England, 1558-1689 John Coffey, 2000 This fascinating work is the first overview of its subject to be published in more than half a century The issues it deals with are key to early modern political religious and cultural history Introduced with a survey of concepts and theory it moves on to examine the practice of toleration at the time of Elizabeth I and the Stuarts the Puritan Revolution and the Restoration The seventeenth century emerges as a turning point after which for the first time a good Christian society also had to be a tolerant one

History of Political Thought , 2009

Puritans and Puritanism in Europe and America Francis J. Bremer, Tom Webster, 2005-12-19 This exhaustive treatment of the Puritan movement covers its doctrines its people its effects on politics and culture and its enduring legacy in modern Britain and America Puritanism began in the 1530s as a reform movement within the Church of England It endured into the 18th century In between it powerfully influenced the course of political events both in Britain and in the United States Puritanism shaped the American colonies particularly New England It was a key ingredient in literature from authors as diverse as John Milton and Nathaniel Hawthorne Although Puritanism as a formal movement has been gone for more than 300 years its influence continues on the mores and norms of America and Britain This ambitious work contains nearly 700 entries covering people events ideas and doctrines the whole of Puritanism Exhaustive and authoritative it draws on the work of more than 80 leading scholars in the field Impeccable scholarship combines with eminent readability to make this a valuable work for all readers and researchers from secondary school up

Persecution and Toleration in Protestant England 1558-1689

John Coffey, 2014-06-11 This fascinating work is the first overview of its subject to be published in over half a century. The issues it deals with are key to early modern political, religious, and cultural history. The seventeenth century is traditionally regarded as a period of expanding and extended liberalism when superstition and received truth were overthrown. The book questions how far England moved towards becoming a liberal society at that time and whether or not the end of the century crowned a period of progress or if one set of intolerant orthodoxies had simply been replaced by another. The book examines what toleration means now and meant then, explaining why some early modern thinkers supported persecution and how a growing number came to advocate toleration. Introduced with a survey of concepts and theory, the book then studies the practice of toleration at the time of Elizabeth I and the Stuarts, the Puritan Revolution, and the Restoration. The seventeenth century emerges as a turning point after which, for the first time, a good Christian society also had to be a tolerant one. *Persecution and Toleration* is a critical addition to the study of early modern Britain and to religious and political history.

The Lincoln Library of Social Studies: History, Government and politics, 1969 *Historical Abstracts*, 1999

Persecution and Toleration in Protestant England 1558-1689 John Coffey, 2000-11 *Persecution and Toleration in Protestant England 1558-1689* explores an issue that is key to early modern political, religious, and cultural British history. Traditionally regarded as a period of expanding and extended liberalism as superstition and received truth were overthrown, this book argues conversely that one set of intolerant orthodoxies was replaced by another. It examines what toleration means now and meant then within a European context. Introduced with a survey of the theory, including the writings of Locke and Hobbes, the book then studies the Stuarts, the Puritan Revolution, and the Restoration. For those readers interested in British history, also available in Hardcover 0 582 30465 2 89 95Y **The Lincoln Library of Social Studies**, 1968 *Charitable Hatred* Alexandra Walsham, 2006-09-05 *Charitable Hatred* offers a challenging new perspective on religious tolerance and intolerance in early modern England. Setting aside traditional models charting a linear progress from persecution to toleration, it emphasizes instead the complex interplay between these two impulses in the sixteenth and seventeenth centuries.

From Persecution to Toleration Ole Peter Grell, Jonathan Irvine Israel, Nicholas Tyacke, 1991 This book reestablishes the importance of religion in the historical assessment of the Glorious Revolution and its consequences. The distinguished scholars who contributed to this volume explore a variety of themes, including the nature of religious dissent, the idea of freedom of conscience, and attitudes towards the Huguenot community. They examine not only Protestant dissent but also Catholicism, Judaism, and Deism. **Persecution and Pluralism** Richard Bonney, David J. B. Trim, 2006 With one exception, the papers collected here were first presented at a conference sponsored by the British Academy held at Newbold College, Berkshire, in 1999. This volume provides a historical perspective to the emerging literature on pluralism. A range of experts examine how Calvinists in early modern France, England, Hungary, and the Netherlands related to members of other faith communities and to society in general. The essays explore the importance of Calvinists' separateness and potent sense of

identity To what extent did this enable them to survive persecution Did it at times actually induce repression Where Calvinists held political power why did they often turn from persecuted into persecutors How did they relate to Ana Baptists Quakers and Catholics for example The conventional wisdom that toleration and in consequence pluralism resulted from a waning in religious zeal is queried and alternative explanations considered Finally the concept of pluralism itself is investigated

Persecution and Toleration Ecclesiastical History Society (London). Meeting, 1984 **Religious Persecution** Edmund Sidney Pollock Haynes, 2012-02 Purchase of this book includes free trial access to www million books com where you can read more than a million books for free This is an OCR edition with typos Excerpt from book CHAPTER III WESTERN BUROPB IN THE SIXTEENTH CENTURY Befork the sixteenth century it can be boldly said that religious toleration was practically outside the experience of European Christendom except in the countries where the Greek and Latin Churches were co terminous and had to keep the peace with each other Yet as I wrote in the last chapter the thin end of the wedge had been introduced by the toleration of the Jews who were admitted to the rights of citizenship in spite of their heresy There are four great stages in the modern history of toleration 1 The first is the territorial settlement of cw ws regio ejus religio virtually obtained by the Religious Peace of Augsburg in 1555 The second is the toleration of one other religious party in the state and was achieved in the Edict of Nantes published in 1598 The third is the toleration of more than one dissenting body such as the English Toleration Act of 1689 The fourth is the toleration of individuals which was theoretically recognised about 1789 but its best practical example is perhaps the permission given to Mr Bradlaugh in our own time to enter the House of Commons 1 This was partially suggested to me in conversation by Mr A L Smith Fellow of Balliol College Oxford Professor Ritchie has shown how even the first ideal was not realised in Switzerland till 1848 72 The first stage was not reached till the middle of the sixteenth century and the second not till the close of it Yet the Protestant Revolution was in full swing by 1530 What then were the causes which retarded the progress of toleration Any attempt to answer this question involves some examination of the new theories of toleration and of the extent to which they were allowed to enter into the region of experiment The Pr
