Performing The Psalms:

The Cambridge History of Musical Performance Colin Lawson, Robin Stowell, 2012-02-16 The intricacies and challenges of musical performance have recently attracted the attention of writers and scholars to a greater extent than ever before. Research into the performer's experience has begun to explore such areas as practice techniques, performance anxiety, and memorisation, as well as many other professional issues. Historical performance practice has been the subject of lively debate, way beyond academic circles, mirroring its high profile in the recording studio and the concert hall. Reflecting the strong ongoing interest in the role of performers and performance, this History brings together research from leading scholars and historians and importantly features contributions from accomplished performers whose practical experiences give the volume a unique vitality. Moving the focus away from the composers and onto the musicians responsible for bringing the music to life, this History presents a fresh, integrated and innovative perspective on performance history and practice from the earliest times to today.

A Dictionary of Christian Antiquities William Smith, Samuel Cheetham, 1880
Music, Dance, and Drama in Early Modern English Schools Amanda Eubanks Winkler, 2020-06-04 The first book to systematically analyze the role the performing arts played in English schools after the Reformation.

Tonus Peregrinus: The History of a Psalm-tone and its use in Polyphonic Music Dr Mattias Lundberg, 2012-08-01 Mattias Lundberg investigates the historical role of a deviant psalm tone, the *tonus peregrinus*, focusing on its applications in polyphonic music within all major branches of Western liturgy. Throughout the remarkably persistent tradition of applying this melody to polyphony from the ninth century right up to the twenty-first, coeval music theory is able to shed light on the problems it has posed to modal and tonal practice at various historical stages. The musical settings studied hold up a mirror to the general development of psalmody, concerning practices of organum, diverse regional forms of fauxbourdon, cantus firmus, composition, free imitation, parody, fugue, quodlibet, monody, and many other compositional techniques, where the unique features of the psalm tone have necessitated modification of existing practices. The conclusions drawn reveal a musico-liturgical tradition that was not in real danger of extinction until the general decline of Western liturgy that followed in the eighteenth century, at which point the historiography of the *tonus peregrinus* became a factor stimulating scholarly and musical interest in its alleged pre-Christian origins. Lundberg demonstrates that the succession of works based on the *tonus peregrinus* often preserved a distinctly conservative musical and theological conception even during periods of drastic liturgical reform.

Divine Council, Ethics, and Resistance in Psalm 82 David G Firth, Erica Monge-Greer, 2024-07-25 Psalm 82 can often be overlooked as simplistic, confusing, or out of place. With an understanding of ethical liturgy, Monge Greer illuminates this mythopoeic psalm as a deeply sophisticated prophetic summons to actively embrace justice for the poor, marginalised, and disenfranchised in our communities. Monge Greer's interpretation provides a new opportunity for biblical study of this psalm, offering clarity and relevance to this heavily discussed psalm. *Divine Council, Ethics, and Resistance in Psalm 82* explores the

origins of the Psalm its use as liturgy in early Israelite cultic practice and its reception as resistance literature in the Second Temple period By examining the historical usage of the psalm Monge Greer reveals to the reader how Psalm 82 can be used to inform their own lives and actions Divine Council Ethics and Resistance in Psalm 82 is a new approach for biblical scholars historians and those seeking justice in the everyday

Performing the Psalms Dave Bland, David Fleer, 2005-05-01 This two part volume of heuristic essays and sermons brings together mainline and evangelical scholars and preachers to help preachers to engage the world scripture imagines The goal of this collection of essays and sermons is two fold to help preachers to draw congregations to life as it is uttered and imagined in the Psalter and to help them to speak from the Psalms of the reality of the transcendent God who through these texts and their implied narratives longs to claim central position in our lives It begins with a lively dialogue that orients readers to the worlds clearly conceived in Psalms The second half of the book appropriates this orientation with sermons for Christian congregations Contributors include Walter Brueggemann Ronald Cox John Mark Hicks J Clinton McCann Jr and Paul Scott Wilson Sermons contributed by Dave Bland Jeff M Christian David Fleer James Howell Mark Love and J Clinton McCann Jr
