

Artificial Intelligence

History of AI

Artificial Intelligence (AI) is the simulation of human intelligence processes by machines, especially computer systems. These processes include learning (the acquisition of knowledge from experience), reasoning (the manipulation of knowledge to reach conclusions), and problem-solving (the selection of a goal and the determination of the best way to achieve it).

Pricing

Artificial Intelligence (AI) is a rapidly growing market, with the global AI market expected to reach \$1.3 trillion by 2025. The market is driven by the increasing demand for AI-powered solutions in various industries, including healthcare, finance, manufacturing, and retail. The market is also driven by the increasing investment in AI research and development by governments and private companies.
