Case Studies on Corporations and Global Health Governance Nora Kenworthy, Ross MacKenzie, Kelley Lee, 2016-07-18

There is growing evidence of the wide ranging impacts of corporations in selected industries on global patterns of health and disease. However, limited analysis has been undertaken of the increasing corporate involvement in collective action needed to effectively address these impacts. This book brings together a wide ranging collection of case studies that provide new empirical research on how corporations impact on and influence and could be held more accountable to global health governance. Written by leading and emerging scholars from a broad range of disciplinary perspectives, each case study seeks to expand the methods, conceptual approaches and sources of data used to address three key questions: What impacts are corporations having on global health governance? How do corporations shape and influence global health governance in ways that protect and promote their own interests? What forms of global health governance are needed to mediate these corporate impacts in ways that protect and promote population health? Also for a practical guide on how to conduct research on the impact of corporations on global health and global health governance, see the partner volume http://www.rowmaninternational.com/books/researching_corporations_and_global_health_governance

Applying the Actor-Network Theory in Media Studies Spöhrer, Markus, Ochsner, Beate, 2016-08-24

Actor Network Theory ANT originally a social theory seeks to organize objects and non human entities into social networks Its most innovative claim approaches these networks outside the anthropocentric view including both humans and non human objects as active participants in a social context because of this the theory has applications in a myriad of domains not merely in the social sciences

Applying the Actor Network Theory in Media Studies applies this novel approach to media studies This publication responds to the current trends in international media studies by presenting ANT as the new theoretical paradigm through which meaningful discussion and analysis of the media its production and its social and cultural effects

Featuring both case studies and theoretical and methodical meditations this timely publication thoroughly considers the possibilities of these disparate yet divergent fields This book is intended for use by researchers students sociologists and media analysts concerned with contemporary media studies

CTET Social Studies/ Science & EVS 9 Year-wise Solved Papers 1 & 2 Disha Experts, 2019-11-06 **Pandora's Hope** Bruno Latour, 1999-06-30

A scientist friend asked Bruno Latour point blank Do you believe in reality Taken aback by this strange query Latour offers his meticulous response in Pandora s Hope It is a remarkable argument for understanding the reality of science in practical terms

In this book Latour identified by Richard Rorty as the new b te noire of the science worshippers gives us his most philosophically informed book since Science in Action Through case studies of scientists in the Amazon analyzing soil and in Pasteur s lab studying the fermentation of lactic acid he shows us the myriad steps by which events in the material world are transformed into items of scientific knowledge

Through many examples in the world of technology we see how the material and human worlds come together and are reciprocally transformed in this process Why Latour asks did the idea of an independent reality free of human interaction emerge in the first place His answer to this question harking back to the debates between Might and Right narrated by Plato points to the real stakes in the so called science wars the perplexed submission of ordinary people before the warring forces of claimants to the ultimate truth
