Mortgage Rates Early Access Deals Deal:

A Practical Guide to Paying off Your Mortgage Early Lien Luu, Sukanlaya Sawang, 2024-10-22 Owning a property is a dream for many people and borrowing from banks is often essential to achieve this. However, having a mortgage can cause real anxiety because of the latent fear of losing our home if we cannot keep up with mortgage payments. Traditionally, homeowners repay their debt over 25 years, but high house prices have made it necessary to increase the term up to 40 years to make monthly payments affordable. Spreading the debt over a longer period of time not only means that borrowers have to pay more interest but they are also exposed to other risks such as potential interest rate rises and changes in personal circumstances affecting their mortgage eligibility. These can lead to financial worries, financial stress, and reduced well-being. There are few practical guides available to show borrowers how to manage their mortgage debt more effectively and how to repay their mortgage quickly so that they are debt-free. This book seeks to empower consumers young and old by providing a roadmap to help borrowers achieve financial security through planning for the future, insuring their income, and setting up an emergency fund. It also outlines simple strategies for an early repayment of debt, including paying off the capital, making extra payments, and monitoring their mortgage debt. In doing so, it aims to help readers improve their general well-being, enhance their financial security, reduce their financial worries, and eliminate their mortgage insomnia.

Mortgage arrears and access to mortgage finance Great Britain: Parliament: House of Commons: Treasury Committee, 2009-08-08 This report focuses on households affected by the recession struggling with mortgage arrears or at risk of repossession. The role of the Financial Services Authority (FSA) is also scrutinised. The report notes that both mortgage arrears and repossession levels are on an upward trend and that both are expected to continue rising over the next few years as a result of the recession. The Committee acknowledges that many mainstream lenders are taking pro-active steps to support consumers in mortgage difficulties but expresses concern at the lack of flexibility and forbearance shown by some lenders in the sub-prime specialist and second charge sectors towards homeowners in arrears and the fact that some lenders are charging high and excessive mortgage arrears fees to customers who fall into mortgage difficulties. The FSA should take a much more robust stance towards tackling and eliminating unfair arrears charges. The report criticises the seemingly leisurely approach of the FSA in terms of completing its mortgage arrears review and enforcing possible breaches in the mortgage arrears rules. It calls upon the FSA to spell out clearly in its forthcoming review how it will improve its performance in terms of bringing miscreant firms to book. The report recommends that the Government re-examine its longer term strategy towards supporting homeowners in mortgage difficulties to ensure that adequate mechanisms to support homeowners are in place even once the current downturn has ended.
