Top Movies In The Us Returns:

Predicting Movie Success at the Box Office Barrie Gunter, 2018-02-20 This book explores the different factors that can influence a new movie's prospects at the box office. Looking at factors such as the production budget, distribution model, genre stars, and audience reactions of films, Gunter asks how such aspects may reduce the uncertainties of success so common in the movie industry. The reader is taken on a journey through filmmaking factors that research suggests impact box office performance. While box office revenues represent only part of a movie's earning potential, Gunter highlights how theatrical performances remain central to what the movie business is about. The chapters illustrate how ticket sales are largely influenced by the production budget but also cultural differences and new movie platforms.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a précis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system, which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations: for viewing, recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e., animated, drama, sports, mystery, adventure, etc., as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Return of the B Science Fiction and Horror Heroes Tom Weaver, 2000 The people who directed, produced, and starred in the scary and fantastic movies of the genre's heyday over thirty years ago created memorable experiences as well as memorable movies. This McFarland Classic brings together over fifty interviews with the directors, producers, actors, and makeup artists of science fiction and horror films of the 1940s, 1950s, and 1960s. From B movies to classics, Samuel Z. Arkoff to Acquanetta, these veteran vampire, swamp monster, and flying saucer attackees share their memories. This classic volume represents the union of two previous volumes: *Interviews with B Science Fiction and Horror Movie Makers*, more fun than the lovably cheap movies that inspired it; *Booklist RBB and Science Fiction Stars and Horror Heroes*, candid and must-read. ARBA Together at last, this combined collection of interviews offers a candid and delightful perspective on the movies that still make audiences squeal with fear and occasionally howl with laughter.
