A New International Legal Order Chia-Jui Cheng, 2016-10-11 A new international legal order NILO has progressively infiltrated the traditional scope of international law. The essays contained in this book have been written to commemorate the past ten years of the Xiamen Academy of International Law and the emergence of this NILO. They display a remarkable intellectual vitality and illustrate the new initiatives contributing to a NILO in the realm of international law. Netherlands Yearbook of International Law 2012 Janne Elisabeth Nijman, Wouter Werner, 2013-06-12 The *Netherlands Yearbook of International Law* (NYIL) was first published in 1970. It offers a forum for the publication of scholarly articles of a more general nature in the area of public international law, including the law of the European Union. With this volume on Legal Equality and the International Rule of Law, the *Netherlands Yearbook of International Law* celebrates Pieter Kooijmans' academic, diplomatic and judicial career by picking up on an important subject in his early writings: the principle of legal equality of states. This volume studies if and how the principle of legal equality of states is still important in the international legal order of the early 21st century. In particular, this volume examines the principle's current relevance, e.g. in a pluralistic legal order, its relation to hegemony in international relations and international law, and how it functions in contemporary international organisations. The principle is further explored in the fields of international criminal law, international humanitarian law, and the international law of sovereign immunity.
