Bauer, 1994 As schools struggle with management shifts and decentralization the need to coordinate grant proposal development has become even more urgent Other changes in the funding tide such as cross curricular proposals and evolving grantor guidelines have further complicated the process by which many grant seekers once operated Educational consultant David Bauer explains in clear and lucid language how districts can best navigate the bureaucratic mire of legal ethical and financial requirements while at the same time creating exciting grant seeking programs at the local school and community level Successful Grants Program Management is very much a hands on practical map through the vast terrain of grants administration from procedure manuals to computer based research from inception to funding Copyright Libri GmbH All rights reserved **Mathematics Teaching in the Middle**
