Relevant Query Answering over Streaming and Distributed Data Shima Zahmatkesh,Emanuele Della Valle,2020-01-21 This book examines the problem of relevant query answering over the Web and provides a comprehensive overview of relevant query answering over streaming and distributed data In recent years Web applications that combine highly dynamic data streams with data distributed over the Web to provide relevant answers have attracted increasing attention Answering in a timely fashion i e reactively is one of the most important performance indicators especially when the distributed data is evolving The book proposes a solution that retains a local replica of the distributed data and offers various maintenance policies to refresh the replica over time A limited refresh budget guarantees the reactivity of the system Focusing on stream processing and Semantic Web it appeals to scientists and graduate students in the field **TV Outside the Box** Neil Landau,2015-12-22 TV Outside the Box Trailblazing in the Digital Television Revolution explores the new and exploding universe of on demand OTT Over the Top networks Netflix Amazon Hulu Crackle CW Seed Vimeo AwesomenessTV and many more Featuring in depth conversations with game changing content creators industry mavericks and leading cultural influencers TV Outside the Box is essential reading for anyone interested in the dynamics of a global media revolution while it s happening Readers will discover How the new disruptors of traditional television models are shaping the future of the television and feature film business You ll hear directly from the visionaries behind it all from concept genesis to predictions for the future of streaming platforms their strategies for acquisitions and development of new original content and how the revolution is providing unprecedented opportunities for both established and emerging talent What s different about storytelling for the progressive risk taking networks who are delivering provocative groundbreaking binge worthy

content without the restraints of the traditional advertiser supported programming model Through interviews with the showrunners content creators and producers of dozens of trailblazing series including Orange Is the New Black House of Cards Transparent and many more you ll learn how and why the best and the brightest TV content creators and filmmakers are defining the new digital entertainment age and how you can too Field and Stream ,1926 **Field & Stream** ,1978-12 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **Binge and Bingeability** Arienne Ferchaud,2020-10-15 Binge and Bingeability The Antecedents and Consequences of Binge Watching Behavior examines how the television industry has transformed over time to create the circumstances in which binge watching as a mass behavior can emerge and what role audiences have played in the rising prevalence of this behavior Arienne Ferchaud recognizing that this behavior did not spring fully formed from streaming services ties cultural approaches to binge watching with media psychology oriented theories including the concept of bingeability the likelihood that a specific show will be binge watched alongside the psychological impacts binge watching may have on viewers over time Scholars of media studies television studies sociology cultural studies and psychology will find this book particularly useful **Field & Stream** ,1979-05 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations Field & Stream ,1970-06 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **Streaming and Copyright Law** Lasantha Ariyaratna,2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing

for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
