Social Security Bulletin ,1995 **Federal Register** ,2013-09 *Regional Economic Outlook, April 2018, Western Hemisphere Department* International Monetary Fund. Western Hemisphere Dept.,2018-05-11 The world economy and global trade are experiencing a broad based cyclical upswing Since October 2017 global growth outcomes and the outlook for 2018 19 have improved across all regions reinforced by the expected positive near term spillovers from tax policy changes in the United States Accommodative global financial conditions despite some tightening and market volatility in early February 2018 have been providing support to economic recovery Higher commodity prices are contributing to an improved outlook for commodity exporters The US and Canadian economies posted solid gains in 2017 and are expected to grow above potential in the near term Despite the improved near term outlook however medium term prospects are tilted downwards Growth prospects for advanced economies are subdued and many emerging market and developing economies are projected to grow in per capita terms more slowly than advanced economies raising concerns about income convergence While risks appear broadly balanced in the near term they skew to the downside over the medium term including a possible sharp tightening of financial conditions waning popular support for global economic integration growing trade tensions and risks of a shift toward protectionist policies and geopolitical strains

Republic of Estonia International Monetary Fund. European Dept.,2023-07-28 Estonia has made remarkable progress over the past two decades achieving steady convergence towards more advanced EU economies However signs of erosion in external performance have emerged in recent years reflecting rapid growth in unit labor cost and real exchange rate appreciation Russia s invasion of Ukraine triggered a large rise in inflation supply chain disruptions and slower growth in key trading partners in the Baltic region In Estonia these developments combined with fiscal tightening in 2022 have led to a sharp economic downturn while deceleration in productivity has exacerbated competitiveness erosion
