Envisioning Black Feminist Voodoo Aesthetics Kameelah L. Martin,2016-09-30 In the twenty first century American popular culture increasingly makes visible the performance of African spirituality by black women Disney s Princess and the Frog and Pirates of the Caribbean franchise are two notable examples The reliance on the black priestess of African derived religion as an archetype however has a much longer history steeped in the colonial othering of Haitian Vodou and American imperialist fantasies about so called black magic Within this cinematic study Martin unravels how religious autonomy impacts the identity function and perception of Africana women in the American popular imagination Martin interrogates seventy five years of American film representations of black women engaged in conjure hoodoo obeah or Voodoo to discern what happens when race gender and African spirituality collide She develops the framework of Voodoo aesthetics or the inscription of African cosmologies on the black female body as the theoretical lens through which to scrutinize black female religious performance in film Martin places the genre of film in conversation with black feminist womanist criticism offering an interdisciplinary approach to film analysis Positioning the black priestess as another iteration of Patricia Hill Collins notion of controlling images Martin theorizes whether film functions as a safe space for a racial and gendered embodiment in the performance of African diasporic religion Approaching the close reading of eight signature films from a black female spectatorship Martin works chronologically to express the trajectory of the black priestess as cinematic motif over the last century of filmmaking Conceptually Martin recalibrates the scholarship on black women and representation by distinctly centering black women as ritual specialists and Black Atlantic spirituality on the silver screen

Railway Mechanical and Electrical Engineer ,1848 **The Librarian's Introduction to Programming Languages** Beth Thomsett-Scott,2016-06-21 The Librarian s Introduction to Programming Languages presents case studies and practical applications for using the top programming languages in library and information settings While there are books and Web sites devoted to teaching programming there are few works that address multiple programming languages or address the specific reasons why programming is a critical area of learning for library and information science professionals There are many books on programming languages but no recent items directly written for librarians that span a variety of programs Many practicing librarians see programming as something for IT people or beyond their capabilities This book will help these librarians to feel comfortable discussion programming with others by providing an understanding of when the language might be useful what is needed to make it work and relevant tools to extend its application Additionally the inclusion of

practical examples lets readers try a small app for the language This also will assist readers who want to learn a language but are unsure of which language would be the best fit for them in terms of learning curve and application Languages covered are JavaScriptPERLPHPSQLPythonRubyCC Java This book is designed to provide a basic working knowledge of each language presented case studies which show the programming language used in real ways and resources for exploring each language in more detail *Natural science* ,1898 **Buffett's Tips** John M.
