Teach Like a Human David J. Mulder, 2025-09-18 Are the machines taking over Artificial intelligence suddenly seems to be everywhere including in the world of education With new AI powered tools popping up every day it s no wonder that educators might feel overwhelmed How can we navigate the strange new world of AI without losing our humanity or our sense of humor Blending thoughtful theology practical wisdom and a deep love for teaching this book invites educators to reflect on big questions What does it mean to be a real human in an age of artificial intelligence What tools should we adopt and which ones should we avoid and how can we decide How do we stay grounded in the gospel story while adapting to emerging technologies Rather than offering easy answers or alarmist warnings let s consider an approach that is curious and courageous developing a hopeful vision for education that forms both minds and hearts Standing on the truth of Scripture and keeping a finger on the tech pulse this book helps Christian educators practice thinking faithfully acting ethically and teaching joyfully even when algorithms are everywhere Teaching

Christianity with technology isn't about keeping up with the latest tools and trends; it's about being the humans God created us to be. **Let's All Teach Computer Science!** Kiki Prottzman, 2024-05-08. You belong in this world of computer science education and because of you adults of the future will understand how to responsibly participate in high tech environments with confidence. Districts, cities, and states are moving toward computer science requirements for all K-12 classrooms, even in courses that were not previously associated with technology. These new requirements leave many teachers feeling anxious and unprepared when it comes to integrating computer science into existing curriculum. This book is here to support educators in that shift by inviting them to explore computer science and coding in an approachable and unthreatening way. Let's All Teach Computer Science K-12 is a source of inspiration and empowerment for educators who are moving into this technological wonderland. Kiki Prottzman has more than 15 years of experience in computer science education and her insight informs thoughtful discussions on promoting creativity, problem solving, and collaboration in students. The book positions computer science in a way that supports other essential skills such as reading, writing, and mathematics by providing customizable frameworks that help to seamlessly integrate computer science into core subjects. This book provides powerful insights for creating innovative and inclusive learning environments. Offers practical examples of integrating computer science into traditional subjects like math, history, art, and more. Highlights the importance of addressing implicit biases and promoting computer science as an inclusive field for all students. Includes insights on classroom technology and educational technology as well as AI and its role in education. Encourages educators to work together to nurture digital innovators while recognizing potential challenges and frustrations. Let's All Teach Computer Science is an essential guide that equips K-12 teachers with the knowledge and tools necessary to begin teaching computer science immediately and does so in an enjoyable way thanks to Prottzman's friendly and playful style.
