Intersectional Intimacy Jin

Lee, 2025-11-24 Intersectional Intimacy Identity Work of Racialized Women in Online Dating Cultures is the first book to examine both shared and divergent stories from those who identify as women with race related experiences navigating online dating cultures and to explore how their experience of intimate relationships is mediated by the apps While many women turn to dating apps in search of intimacies their navigations are continuously mediated and challenged by hierarchies of race gender class and sexuality embedded in online dating cultures This book traces the ongoing and layered processes through which racialized women develop their stories of online intimacies by making use of their identities and further cultivate their subjectivities It also addresses the global dimensions of these practices illustrating how global and local power structures intersect with personal experience afforded by the popularity of dating apps and how these readings change with their mobility Intersectional Intimacy will be an essential text for students of gender studies sociology and politics as well as those interested in race media studies digital culture and communications *Handbook of Children and Youth Studies* Johanna Wyn, Helen Cahill, Hernán Cuervo, 2024-08-20 This second edition of the handbook gives a new scientific perspective to youth and childhood studies as multi scientific and interdisciplinary subjects which as such have not yet found their own framing in

a particular discipline It provides theoretical and methodological key debates and issues that develop and add an understanding of childhood and youth research discipline from a broader perspective The Handbook on Children and Youth Studies draws on current thinking but also challenges theoretical and conceptual orthodoxies in the field drawing on interdisciplinary thinking and critical perspectives It focuses on childhood and youth to address the emerging consensus that the boundaries between childhood youth and adulthood are blurred The view that defining youth and childhood largely in terms of problem topics is out dated Instead the handbook focuses on 16 themes that are open to international perspectives and to different conceptual approaches Each theme is edited by a pair of field editors thereby capturing a plurality of views The 16 themes as a starting point are globally timely and they need scientific debates on the boundaries between childhoods youth and adulthood This handbook will meet the needs of childhood and youth researchers and the academics in the field It recognizes the changing social context of the lives of children and young people while developing theoretical frameworks and discussing about the core substantive issues of Children and Youth Studies Proceedings of The 11th European Conference on Social Media Susana Pinto,2025-06 The European Conference on Social Media ECSM is a well established academic conference held annually for over a decade with a focus on advancing research and dialogue around social media The primary aim of ECSM is to provide a platform for scholars researchers practitioners and industry professionals to share and discuss their findings on the multifaceted impacts of social media The conference emphasises the importance of understanding how social media influences various sectors including society education business and governance
