Eclipses, Celeste Teal, 2006. Eclipses play a crucial role in the fates of nations and the lives of individuals. Nationally known astrologer Celeste Teal draws on nearly thirty years of astrological experience to explain and illustrate how eclipses act as cosmic telegrams about the current state of our world, our personal lives and our relationships with others. Eclipses illustrates how recent and historical events can be linked directly to eclipses and provides predictions for their effects on world events in the next decade and beyond. Readers will explore the effects of prenatal eclipses on the natal chart as well as past, present and future eclipses. While eclipses are often mentioned in monthly horoscopes, no other book has ever attempted to demonstrate how these heavenly events are observably connected to both world events and personal affairs.
