Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you've ever kept your leftovers from dinner to take with you for lunch then next day then you've learned mini meal prepped Get it though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch for the week You can use this same technique for breakfast lunch dinner and snacks Meal prepping prevents food waste and reduces time to eat outside your home whether that's planned or a budget When keeping your meal prepped day after day the question of meal prep is how to eat healthy meals without having to do it each day to reduce time Meal prep is not for everyone It is good for those who value convenience and often more than anything else With meal prepping you generally eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping isn't for you If having nutritious food while maximizing your time and budget is more valuable to you than eating something different every day meal prep is a great idea I've generally not seen meal prep for the individual or maybe one other person do a whole meal Meal prep for a whole family would be quite difficult but the more people the more it would be a more efficient way to do it Food is stored in the refrigerator or a slow cooker in the kitchen In addition to the way food is packed the individual nuances of your refrigerator can impact the health of your refrigerated meal So the food is acceptable having a texture and flavor well beyond what the eater Always begin with the refrigerator guidelines to be the FDA and then evaluate them against your own preferences In general I don't think more than a few days worth of food is worth the time but that's the food you'll eat and live with
