Hello World Hannah Fry, 2018-09-18

Shortlisted for the 2018 Baillie Gifford Prize and the 2018 Royal Society Investment Science Book Prize A beautifully accessible guide One of the best books yet written on data and algorithms Times UK If you were accused of a crime who would you rather decide your sentence a mathematically consistent algorithm incapable of empathy or a compassionate human judge prone to bias and error What if you want to buy a driverless car and must choose between one programmed to save as many lives as possible and another that prioritizes the lives of its own passengers And would you agree to share your family s full medical history if you were told that it would help researchers find a cure for cancer These are just some of the dilemmas that we are beginning to face as we approach the age of the algorithm when it feels as if the machines reign supreme Already these lines of code are telling us what to watch where to go whom to date and even whom to send to jail But as we rely on algorithms to automate big important decisions in crime justice healthcare transportation and money they raise questions about what we want our world to look like What matters most Helping doctors with diagnosis or preserving privacy Protecting victims of crime or preventing innocent people being falsely accused *Hello World* takes us on a tour through the good the bad and the downright ugly of the algorithms that surround us on a daily basis Mathematician Hannah Fry reveals their inner workings showing us how algorithms are written and implemented and demonstrates the ways in which human bias can literally be written into the code By weaving in relatable real world stories with accessible explanations of the underlying mathematics that power algorithms *Hello World* helps us to determine their power expose their limitations and

examine whether they really are improvement on the human systems they replace

Protect Your Personal Information
Anzar Hasan, Abbas Mirza, 2016-09-16 This is a book that is going to provide you detailed information about the threats that you and your computer are exposed to when you enter the world of Internet. It will discuss different ways through which you can protect yourself from intruders. This book covers all the major kinds of threats that you face when you go online. The book will even discuss the threats that your kids face when they go online. Since kids are not experienced and they are unaware of the consequences of the step they are going to take, it is thus important for the parents to know the dangers their kids face on the world of Internet. It is a kind of book that you should be bound to read once you get in an age where you start using the computer and the Internet. The book does not only highlight the issues that one faces when they go online but it also provides the solutions to the problems. It's not only this but after reading the book you will be able to get to know about different technical terms, the reason they present a threat to your computer, and the signals that you need to look for if you suspect that you have become a victim. The book begins with the introduction to computer security and provides the reader with an overview of the issues and the threats that your computer could face if you do not care about it. The readers will be amazed to find the section on social media threats. Most of the people are not actually aware of the threats that they face when they sign up on a social media website. Thus the book is going to talk about the ways to protect your identity even if you have signed up for a social media website. Anzar Hassan and Abbas Mirza are the writers of this book. They intend to take ahead the initiative of cybersecurity. They both developed G7 Security in the year 2010 while working under Arshnet Technologies. This app could currently be found on the app store. It was one of the most operative step that was taken in order to educate people about cybersecurity. It was extremely important to launch it because people were not able to find a viable solution to the problem of cyber attacks. G7 Security is a cybersecurity research and global information security services entity. This entity offers research and development, information sharing, and collaboration. In addition to this, it offers various services for the information and cybersecurity community. The efforts made to develop G7 Security app were recognized in Computer World's Mobile Access awards category for the innovative application of IT. The major aim of this app is to extend the distribution of digital information programs and services through mobile devices. This was the reason it was able to reach the areas where use of mobile devices is quite common. Computerworld Honors Program honors those who try to develop visionary applications of information technology through which they try to promote positive social, economic, and educational change. Their basic aim behind this book is to ensure that a nontechnical person gets to know about the threats and dangers that he and his devices face once he connects himself to the Internet. This book plays an important role in fulfilling the basic aim of the authors. After reading this book, you will be able to realize the fact that you were living a dangerous life by connecting your computer to the Internet. But by following the right steps, you will be able to secure your device and your identity from being misused.
