**The New Education** Cathy N. Davidson, 2017-09-05 A leading educational thinker argues that the American university is stuck in the past and shows how we can revolutionize it for our era of constant change Our current system of higher education dates to the period from 1865 to 1925 It was in those decades that the nation s new universities created grades and departments

majors and minors all in an attempt to prepare young people for a world transformed by the telegraph and the Model T As Cathy N Davidson argues in *The New Education* this approach to education is wholly unsuited to the era of the gig economy From the Ivy League to community colleges she introduces us to innovators who are remaking college for our own time by emphasizing student centered learning that values creativity in the face of change above all *The New Education* ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come *Congressional Record* United States. Schrag,2001-11-30 In 1993 Congress created a student loan repayment plan intended to enable high debt graduates to accept low income public service jobs by reducing their loan payments and eventually forgiving part of their debts But this Congressional initiative only helps those with catastrophically low incomes It has failed to attract many users because as implemented through regulations of the U S Department of Education it requires payment over too long a period 25 years before forgiveness Many students go to graduate and professional schools in pursuit of careers in public service But they often must borrow 100 000 or more to finance their education Their loan repayment obligations become so high that they can no longer afford to follow their ideals and they abandon their plans to have public service careers and seek employment with corporations or firms offering high salaries The income contingent repayment plan should have appealed to would be public interest lawyers who are among the graduates with the highest debt to income ratios but the plan has failed them and Schrag explores why and how the plan should be reformed either by Congress or by the federal administration *Student Loans* Janet S.
