Passages Beyond The Gate A Jungian Approach To Understanding American Psychology:

Passages Beyond the Gate George-Harold Jennings, 2010-08-04 In a clear and persuasive argument Jennings suggests that in order to move forward in understanding what it means to be a person American psychology must break through the barrier constructed by the big three mainstream approaches and embrace a promising fourth force which conceives of personality as entailing a transpersonal dimension Barbara Engler PhD author of *Personality Theories* 8th Edition

Passages Beyond the Gate George-Harold Jennings, 1996 Examining American psychology's development from a Jungian perspective Jennings argues that the discipline is at a point where a deeper and broader exploration of spirituality is essential in order to realize the goal of creating a complete psychology of human beings Having already developed an understanding of the person that rests upon the tenets of behavioral cognitive behavioral psychoanalytic humanistic and existential approaches many mainstream American psychologists now seem eager to embrace a growing viewpoint of the person grounded in biological psychology which draws the discipline closer to a materialistic understanding of human beings This direction in American psychology reinforces a strikingly unbalanced viewpoint of human nature that does little to reveal the fullness and purpose of human spirituality To address this deficiency Jennings encourages more American psychologists to integrate spiritual concepts readily explored in transpersonal psychology with respect to our more traditional psychological understanding of what it means to be human

Introduction to Transpersonal Psychology Paul F. Cunningham, Ph.D., 2021-12-28 Introduction to Transpersonal Psychology Bridging Spirit and Science provides an accessible and engaging introduction to this complex and evolving field Adopting a modular approach the book systematically relates key themes of Transpersonal Psychology to three major areas within psychology general psychology experimental psychology and clinical psychology Covering a wide range of topics including transpersonal states of consciousness biological foundations research methods and cognition the book also features extensive discussion of transpersonal theorists and the impact of their work on our understanding of psychological concepts

The book also introduces contemporary developments in the field and anticipates future advances such as feminist perspectives and cross cultural approaches alongside practical experiments designed to give transpersonal theories and concepts psychological roots A critical evaluation of both mainstream and transpersonal theories and research is applied throughout to foster analytical skills and encourage critical and scientific thinking about humanity s nature as spiritual creatures and ways to educate for personal and social transformation Accompanied by an online instructor s manual this book will be an essential companion for all students of Transpersonal or Humanistic Psychology or those interested in applying transpersonal ideas to mainstream psychological research *Art Therapy* , Nursing Student Retention

Marianne R. Jeffreys,2004 This book presents an organizing framework for understanding student retention identifying at risk students developing diagnostic prescriptive strategies to facilitate success and innovations in teaching and educational research The author s conceptual model for student retention is interwoven with essential information for developing implementing and evaluating retention strategies *Self-Determination Theory* Richard Ryan,Edward L. Deci,2018-11-06 Among the most influential models in contemporary behavioral science self determination theory SDT offers a broad framework for understanding the factors that promote human motivation and psychological flourishing In this authoritative work SDT cofounders Richard M Ryan and Edward L Deci systematically review the theory s conceptual underpinnings empirical evidence base and practical applications across the lifespan Ryan and Deci demonstrate that supporting people s basic needs for competence relatedness and autonomy is critically important for virtually all aspects of individual and societal functioning Jacket

Jeffreys,2010-06-21 Print CourseSmart **Individual and Contextual Factors in the English Language Classroom** Rahma Al-Mahrooqi,Christopher J. Denman,2022-03-22 This edited volume examines a number of topics related to the roles of individual and contextual factors in English as second or foreign language ESL EFL settings by presenting chapters across the three sections of theoretical and pedagogical approaches teacher and learner research and research into the roles of technology The book has a focus on practical actions and recommendations related to individual and contextual factors in ESL EFL with a specific concern with issues of cognition metacognition emotion and identity and offers perspectives from a diverse range of international education settings For teachers of ESL EFL the effective recognition and integration of individual and contextual factors into the classroom may represent a significant challenge This is often the case in those settings where native English speaking teachers work in foreign language contexts where they may have limited understanding of local cultures and languages or where language instructors have class groups that are culturally and linguistically diverse In these and similar contexts the types and extent

of individual and contextual factors impacting on language learning may challenge both learner and instructor expectations of what an effective and supportive classroom is. While such a situation offers numerous opportunities for learners and teachers to expand their knowledge of themselves and each other, it also presents the possibility for ineffective teaching and learning to occur. It is within this framework that the book presents the latest theoretical, pedagogical, and research perspectives from around the world, thereby providing a resource for all stakeholders with an interest in the roles individual and contextual factors play in the English learning process. **College Student Journal**, 2009 **Annual Review of**
