Paths in Utopia Martin Buber, 1996-11-01 Originally published New York Macmillan 1950 **The First Jewish Environmentalist** Yuval Jobani, 2023 Aharon David Gordon 1856-1922 is increasingly being recognized as the first Jewish environmentalist Long before global warming became a major threat Gordon warned against the mounting dangers of human assault on nature and urged us to open ourselves to nature and re-attune with it *The First Jewish Environmentalist* introduces Gordon's ideas and sets them in their historical context shedding new light on the interconnections between religion culture education and the environment The book expands Gordon's canonical status beyond the realm of Hebrew culture and extracts from Gordon's philosophy empowerment and inspiration for seekers advocating the protection of our planet *The Challenge to Friendship in Modernity* Heather Devere, Preston King, 2013-11-05 In antiquity it was not only Aristotle who assumed the people are more to be understood in relation to one another than as individual or solitary constructs This examination considers the changing attitudes to friendship since antiquity **Nietzsche & Anarchism: An Elective Affinity and a Nietzschean reading of the December '08 revolt in Athens** Christos Iliopoulos, 2019-10-15 This book aims to establish the bond between Friedrich Nietzsche and the anarchists through the apparatus of elective affinity and to challenge the boundaries of several anarchist trends especially classical and post-anarchism and ideologies like anarchism and libertarian Marxism Moreover it highlights the importance of reading Nietzsche politically in a radical way to understand his utility for the contemporary anarchist movement The review of the literature concerning the Nietzsche-anarchy relationship shows the previously limited bibliography and stresses the possibility of exploring this connection with the methodological help of Michael Lowy's concept of elective affinity The significance of this finding is that the relevant affinity may contribute to an alternative to the dominant perception of anarchism as an ideology It may also designate its special features together with its weaknesses meaning the objections of Nietzsche to certain aspects of the anarchist practices and worldview violence resentment bad conscience thus opening a whole new road of self-criticism for the anarchists of the twenty-first century In addition the location and analysis of the elective affinity serves the debunking of the Nietzschean concepts used by conservative and right-wing readings in order to appropriate Nietzsche and of the accusations that the German philosopher had unleashed against anarchists which reveals his misunderstanding of anarchist politics The final part of this book applies the whole analysis above on a Nietzschean reading of the December 08 revolt in Athens based on the *Of the Three Metamorphoses* discourse from *Thus Spoke Zarathustra* offering an alternative view of the events that shook Greece and also had an important global impact **The Existential Philosophy of Etty Hillesum** Meins G. S. Coetsier, 2014-01-09 In *The Existential Philosophy of Etty Hillesum* Meins G. S. Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum's spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum's diaries and letters written between 1941 and 1943 illustrate her struggle to come

to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum s path to spiritual freedom

one of the few modern thinkers who have tried to integrate all phenomena into one system His first book *The Phenomenon of Man* published after his death took the reading public by storm because of its vast sweep and bold attempt to create a complex and cosmic system from both a scientific and a Christian point of view Doran McCarty's treatment of Teilhard covers all the important aspects of his life and thought Here you will find discussions of Teilhard's views on the nature of God the nature of man the structure of reality creation and evolution democracy and totalitarianism Here too are explanations of his unique terminology including centreism withinness Christogenesis Christophere noosphere the Omega Point Dr McCarty presents Teilhard's ideas in more traditional terms while still remaining faithful to the original complexity and terminology This is especially important since Teilhard never had a chance to refine his thought against the reaction and criticism of the scholarly world Dr McCarty's treatment is an excellent introduction for the person who wants to know more about Teilhard as well as being a useful and important study of this unique and influential thinker Publisher *American Book Publishing Record*, 1996 Existentialism: with Or Without God Francis J. Wood, 1969 At the turn of the century Martin Buber arrived on the philosophic scene The path to his maturity was one long struggle with the problem of unity in particular with the problem of the unity of spirit and life and he saw the problem itself to be rooted in the supposition of the primacy of the subject object relation with subjects over here objects over there and their relation a matter of subjects taking in objects or alternatively constituting them But Buber moved into a position which undercuts the subject object dichotomy and initiates a second Copernican revolution in philosophical thought *Daedalus*, 1965
