100 Cases in Clinical Pharmacology, Therapeutics and Prescribing Kerry

Layne, Albert Ferro, 2020-01-29 100 Cases in Clinical Pharmacology Therapeutics and Prescribing explores scenarios

commonly seen by medical students and junior doctors in the ward emergency department outpatient clinic or in general practice in which an understanding of pharmacology and sound prescribing practice is central to successful clinical management and safe patient care A succinct summary of the patient's history examination and any initial investigations is followed by questions on the diagnosis and management of the case The answer includes a detailed discussion on each topic providing practical advice on how to deal with the challenges that occur when prescribing including planning drug

calculations prescription review and adverse drug reactions The book will be invaluable during clinical placements and is an ideal companion during preparation for the Prescribing Safety Assessment examination Making speedy and appropriate clinical decisions and choosing the best course of action to take as a result is one of the most important and challenging parts of training to become a doctor These true to life cases will teach students and junior doctors to prescribe appropriately and to hone their diagnostic and management skills *Pharmacotherapeutics for Advanced Practice Nurse Prescribers* Teri Moser Woo, Wendy Wright, 2024-04 *Pharmacotherapeutics for Advanced Practice Nurse Prescribers Prescribing Skills Workbook* Daniel Norton, Nicholas Norton, Jane Caisley, Rosie Furner, Elizabeth Hamilton, 2014-05-30 Prescribing medications safely is a cornerstone of clinical practice but students receive little or no teaching in the practicalities of prescribing Instead they are often left to learn on the ward which inevitably leaves gaps in their knowledge Unsurprisingly prescribing errors among junior doctors are common and can cause significant harm to patients This is a cause for concern with the GMC and a potential solution in the form of a national exam has been proposed Prescribing Skills Workbook is designed to help students and junior doctors bridge the gap between understanding the science of pharmacology and accurately writing a prescription on a patient's drug chart The workbook format offers an ideal way to practice by completing a series of realistic life size charts in response to a clinical scenario The book features 45 exercises each one carefully chosen to test the reader's grasp of a key principle such as management of the patient on warfarin Each exercise begins with a short scenario next the reader is invited to complete a chart based on the details in the case then follows an answer section containing a correctly completed chart together with a summary of the main clinical and educational aspects of the exercise Key Points A unique resource for medical students and foundation doctors to improve their understanding of the principles of safe prescribing and practice the physical act of filling out a drug chart correctly 45 blank hospital charts replicate the experience of completing a realistic life size prescription with 45 corresponding charts filled out correctly to enable the reader to compare identify and rectify errors DRUGCHARTS checklist provides systematic framework for accurate prescribing by highlighting the key items to consider in each case Key points boxes highlight the main learning objectives in each exercise Short introductory chapter includes tips for safe prescribing **Pharmacology for the Primary Care Provider - E-Book** Marilyn Winterton Edmunds, Maren Stewart Mayhew, 2009-02-26 Written by and for nurse practitioners this practical textbook focuses on what primary care providers need to learn and practice drug therapy With an overall emphasis on patient teaching and health promotion you will learn how to provide effective patient teaching about medications and how to gain patient compliance Drug coverage focuses on key drugs rather than prototype drugs so you can find important information about the most commonly used drugs rather than the first drug in each class You will also find discussions on the legal and professional issues unique to nurse practitioners and other primary care providers The 3rd edition also features an expanded emphasis on established clinical practice guidelines and evidence based practice plus two new chapters that cover drugs for ADHD and

drugs for dementia UNIQUE Written specifically for nurse practitioners with an overall emphasis on patient teaching and health promotion UNIQUE Covers specific topics such as prescriptive authority role implementation and writing prescriptions Presents comprehensive coverage of the drugs most commonly prescribed in and the issues most relevant to primary care practice UNIQUE Identifies the Top 200 drugs in chapter openers with a special icon and covers them in depth to familiarize you with the most important need to know drug information Uses a consistent heading scheme for each prototype drug discussion to make it easier to learn and understand key concepts Includes an introductory chapter on Design and Implementation of Patient Education that highlights content on patient teaching and compliance Includes specific Patient Education sections in each drug chapter Provides extensive coverage of drug therapy for special populations to alert you to special considerations based on age pregnancy race and other factors A separate chapter on Complementary and Alternative Therapies discusses the available complementary and alternative modalities including detailed information on actions uses and interactions of commonly used herbs Drug Overview tables at the beginning of each chapter outline the classifications of drugs discussed and provide a handy reference of drug classes and subclasses generic names and trade names Clinical Alerts highlight essential information that primary care providers must remember in order to avoid serious problems including cautions for prescribing information about drug interactions or warnings about particularly ominous adverse effects An entire unit covers drugs for health promotion to introduce you to drugs commonly seen in outpatient primary care settings and to prepare you for practice in a society increasingly focused on health promotion and disease prevention Includes separate chapters on Immunizations and Biologicals Weight Management Smoking Cessation Vitamins and Minerals Over the Counter Medications and Complementary and Alternative Therapies Pharmacology for the Primary Care Provider Marilyn Winterton Edmunds, Maren Stewart Mayhew, 2009-02-26 This is a Pageburst digital textbook Written by and for nurse practitioners this practical textbook focuses on what primary care providers need to learn and practice drug therapy With an overall emphasis on patient teaching and health promotion you will learn how to provide effective patient teaching about medications and how to gain patient compliance Drug coverage focuses on key drugs rather than prototype drugs so you can find important information about the most commonly used drugs rather than the first drug in each class You will also find discussions on the legal and professional issues unique to nurse practitioners and other primary care providers The 3rd edition also features an expanded emphasis on established clinical practice guidelines and evidence based practice plus two new chapters that cover drugs for ADHD and drugs for dementia UNIQUE Written specifically for nurse practitioners with an overall emphasis on patient teaching and health promotion UNIQUE Covers specific topics such as prescriptive authority role implementation and writing prescriptions Presents comprehensive coverage of the drugs most commonly prescribed in and the issues most relevant to primary care practice UNIQUE Identifies the Top 200 drugs in chapter openers with a special icon and covers them in depth to familiarize you with the most important need to know drug information Uses a consistent

heading scheme for each prototype drug discussion to make it easier to learn and understand key concepts Includes an introductory chapter on Design and Implementation of Patient Education that highlights content on patient teaching and compliance Includes specific Patient Education sections in each drug chapter Provides extensive coverage of drug therapy for special populations to alert you to special considerations based on age pregnancy race and other factors A separate chapter on Complementary and Alternative Therapies discusses the available complementary and alternative modalities including detailed information on actions uses and interactions of commonly used herbs Drug Overview tables at the beginning of each chapter outline the classifications of drugs discussed and provide a handy reference of drug classes and subclasses generic names and trade names Clinical Alerts highlight essential information that primary care providers must remember in order to avoid serious problems including cautions for prescribing information about drug interactions or warnings about particularly ominous adverse effects An entire unit covers drugs for health promotion to introduce you to drugs commonly seen in outpatient primary care settings and to prepare you for practice in a society increasingly focused on health promotion and disease prevention Includes separate chapters on Immunizations and Biologicals Weight Management Smoking Cessation Vitamins and Minerals Over the Counter Medications and Complementary and Alternative Therapies Drug coverage focuses on key drugs rather than prototype drugs since prototype drugs are technically the first drug in a given class but not always the best newest or most commonly prescribed drug Separate chapter on Treatment Guidelines and Evidence Based Decision Making provides practical guidelines for using the current best evidence to make decisions about the care of individual patients All content extensively reviewed by a PharmD consultant to ensure the most accurate current and clinically relevant pharmacology content Includes separate chapters on drugs to treat ADHD and dementia in order to expand on the current treatments available for these two common conditions **Brenner and Stevens' Pharmacology**
