The Role of Smart Technologies in Decision Making Eleonora Pantano, Francesca Serravalle, 2022-10-20. This comprehensive book examines the impact of smart technologies in consumer's behaviour from a contemporary perspective, blending marketing and retailing along with other disciplines such as psychology, media studies, and sociology. Market forces and technological advancements are making the management of and strategies for innovation more prominent and essential in all functions of business, not least marketing and retailing. Frontiers of marketing are constantly pushed, requiring the development and adjustments of new theories. The chapters in this edited volume seek to understand the effect of innovation in consumer behaviour by proposing original empirical and theoretical contributions, methods, models, tools, and case studies that contribute to explain this emergent phenomenon.
