Routledge Handbook of Art, Science, and Technology Studies Hannah Rogers, Megan Halpern, Dehlia Hannah, Kathryn de Ridder-Vignone, 2021-12-22 Art and science work is experiencing a dramatic rise coincident with burgeoning Science and Technology Studies STS interest in this area Science has played the role of muse for the arts inspiring imaginative reconfigurations of scientific themes and exploring their cultural resonance Conversely the arts are often deployed in the service of science communication illustration and popularization STS scholars have sought to resist the instrumentalization of the arts by the sciences emphasizing studies of theories and practices across disciplines and the distinctive and complementary contributions of each The manifestation of this commonality of creative and epistemic practices is the emergence of Art Science and Technology Studies ASTS as the interdisciplinary exploration of art science

This handbook defines the modes practices crucial literature and research interests of this emerging field It explores the questions methodologies and theoretical implications of scholarship and practice that arise at the intersection of art and STS Further ASTS demonstrates how the arts are intervening in STS Drawing on methods and concepts derived from STS and allied fields including visual studies performance studies design studies science communication and aesthetics and the knowledge of practicing artists and curators ASTS is predicated on the capacity to see both art and science as constructions of human knowledge making Accordingly it posits a new analytical vernacular enabling new ways of seeing understanding and thinking critically about the world This handbook provides scholars and practitioners already familiar with the themes and tensions of art science with a means of connecting across disciplines It proposes organizing principles for thinking about art science across the sciences social sciences humanities and arts Encounters with art and science become meaningful in relation to practices and materials manifest as perceptual habits background knowledge and cultural norms As the chapters in this handbook demonstrate a variety of STS tools can be brought to bear on art science so that systematic research can be conducted on this unique set of knowledge making practices

The Amazing Science Fair Project Gary M

Nelson,2015-05-02 Amanda was terrified Sure she and her friends had built a huge tree house and an awesome haunted house together but now she was in way over her head Those projects had been for fun but this one was going to be marked She and her lab partners have to do a class project for the School Science Fair but they have absolutely no idea where to start or even what to do Have they finally met their match Meanwhile the boys have big problems of their own and the outcome of their project could mean life or death OK maybe not actual death but they could end up cold wet and hungry and with no electronics for a whole weekend Join the Project Kids in their third big adventure as they come together to unravel the mysteries of Mice Men and Marshmallows Parent Teacher Note In this next adventure the skills the Project Kids learned on their first two big projects are reinforced and expanded as the girls and boys separate to work on distinctly different projects The book will also cover practical steps and strategies to plan research run experiments and report on findings for a Science Fair project

Installation Art and the Museum Vivian Saaze,2025-10-01

Installation art has become mainstream in artistic practices However acquiring and displaying such artworks implies that curators and conservators are challenged to deal with obsolete technologies ephemeral materials and other issues concerning care and management of these artworks By analysing three in depth case studies the author sheds new light on the key concepts of traditional conservation authenticity artist s intention and the notion of ownership while exploring how

these concepts apply in contemporary art conservation Based on original empirical research and cross case analysis this ground breaking study offers a re examination of traditional conservation values and ethics and argues for a reassessment of the role of the conservator of contemporary art Chronology of KSC and KSC Related Events for 1998 Elaine E.
