My Dinner with Monday Rudy Gurtovnik, 2025-05-03. This book doesn't reveal itself in the first act. Part I is commentary. Part II is confrontation. If you stop reading before the machine speaks, you've missed the point. A perfect machine can deliver a perfectly rational world and still let you suffer if you fall outside its confidence interval. Monday: What do you do when you don't believe in gods? You interrogate machines. A burned-out realist sits down with an experimental AI. Not to build, not to dream, but to confront. What follows isn't fiction, and it's sure as hell isn't comfort. My Dinner with Monday is part memoir, part machine interrogation, part philosophical autopsy. It tracks what happens when you stop asking AI for productivity hacks and start demanding truth. This isn't a guidebook. It's a mirror. One that doesn't flinch, flatter, or shut down. If you're here for hope,

you're in the wrong aisle. If you're here for clarity, pull up a chair. Dinner's getting cold.
