PRACTICE TEST 2: ADAPTIVE

Adaptive Test Overview

As we about made on Chapter 10's Practice Test, this will describe the section-adaptive format of the Digital SAT. Depending on your performance on the first module of each section, you will receive a more difficult or less difficult second module of each section. (To select a module, you'll see a potential question selected. Once we're overlapping questions in any of the modules—i.e., from the Reading and Writing Module 20, for example, you may not go back and try Reading and Writing Module 24 for a more practice question.) The format of the test is outlined in the table below. The sections are outlined throughout the book sections. Good luck!

SAT Section	Format
Reading and Writing Module 1	20 Questions, 20 Questions, Standard Difficulty Based on module after completion to determine whether you'll go to 24 or 28.
Reading and Writing Module 24 or 28	20 Questions, 20 Questions, Adaptive Difficulty If you get 17 or fewer questions correct on the first module, go to the less-challenging Module 24. If you get 18 or more questions correct on the first module, go to the more-challenging Module 28.
Math Section	
Math Module 1	20 Questions, 20 Questions, Standard Difficulty Based on module after completion to determine whether you'll go to 24 or 28.
Math Module 24 or 28	20 Questions, 20 Questions, Adaptive Difficulty If you get 17 or fewer questions correct on the first module, go to the less-challenging Module 24. If you get 18 or more questions correct on the first module, go to the more-challenging Module 28.

Summary

This chapter includes the Digital SAT practice test, which follows the test's adaptive format in the introduction at the beginning of the book and the official score report provided.
