Open Source Technology: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2014-11-30 The pervasiveness of and universal access to modern Information and Communication Technologies has enabled a popular new paradigm in the dissemination of information art and ideas Now instead of relying

on a finite number of content providers to control the flow of information users can generate and disseminate their own content for a wider audience Open Source Technology Concepts Methodologies Tools and Applications investigates examples and methodologies in user generated and freely accessible content available through electronic and online media With applications in education government entertainment and more the technologies explored in these volumes will provide a comprehensive reference for web designers software developers and practitioners in a wide variety of fields and disciplines

Recognition in the Age of Social Media Bruno Campanella,2023-10-30 The desire to be recognized is a basic human trait In contemporary society social media platforms play a key role in defining how processes of recognition take shape To post to like or to comment have become daily practices of expressing individual recognition On the one hand social media platforms make it easier for individuals to be visible and to be recognized on the other hand they control the structure of these dynamics This timely and original book reflects on processes of recognition on social media platforms Revisiting traditional discussions on recognition theory Bruno Campanella investigates how the field of media and communication has used the concept and poses new questions raised by the omnipresence of social media He argues that existing work does not fully explore the impact of platforms on contemporary processes of recognition Individuals must learn new skills to make themselves visible online but how to achieve this changes as a consequence of the role played by platforms what is seen depends on decisions taken by their algorithms which impacts how individuals and social groups are valued in society Recognition in the Age of Social Media is a key contribution to the field and a must read for students and scholars of media and communication sociology and politics

Electronic Commerce Efraim Turban,David King,Jae Kyu Lee,Ting-Peng Liang,Deborah C. Turban,2015-01-29 Throughout the book theoretical foundations necessary for understanding Electronic Commerce EC are presented ranging from consumer behavior to the economic theory of competition Furthermore this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields including a senior vice president of an e commerce related company The authors provide website resources numerous exercises and extensive references to supplement the theoretical presentations At the end of each chapter a list of online resources with links to the websites is also provided Additionally extensive vivid examples from large corporations small businesses from different industries and services governments and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce These examples which were collected by both academicians and practitioners show the reader the capabilities of EC its cost and justification and the innovative ways corporations are using EC in their operations In this edition previous editions published by Pearson Prentice Hall the authors bring forth the latest trends in e commerce including social businesses social networking social collaboration innovations and mobility
