Health Promotion Moving Forward Jody C. Gan, 2024-08-19 Build Skills to Promote Health and Equity in Your Community. This timely and forward-thinking textbook explores how health promotion can respond to current threats like declining teen mental health, loneliness, vaping, food insecurity, vaccine hesitancy, and more. With a population-level approach and an emphasis on the socio-ecological model, it focuses on structural and social determinants of health to support health equity and prevention. Learners will gain skills in health programming, health communication, and community engagement, all essential for impactful careers in public health. Key Features: Aligns health promotion strategies with Healthy People 2030 objectives, the latest guidelines, and evidence-based interventions at every level of society. Informs students about health behavior change theories and a wide array of health promotion efforts that improve equity and outcomes across populations. Career spotlights and real-world case examples give students applied insight into diverse roles and programmatic approaches. Written by dedicated public health educators, college professors, and experts with a clear, accessible voice and real-world focus on today's pressing health issues. Instructor Resources include an Instructor's Manual, PowerPoint slides, a Test Bank, and more.

Artificial Intelligence and K-12 Education Joseph Mintz, Wayne Holmes, Leping Liu, Maria Perez-Ortiz, 2024-11-25 This book problematizes and explores appropriate ways of using AI technology that can augment educational practice, especially in K-12 teaching and learning. Since the launch of OpenAI ChatGPT in November 2022, people have been debating to chat or to cheat, while more and more educators have started to explore to add or to integrate it into teaching and learning. A list of questions has been on the way: What can ChatGPT produce? How accurate can the contents produced by the GPT be? What are the considerations that an instructor should have when using AI technology for student learning? To what extent can ChatGPT compete with humans in terms of learning? ChatGPT is just a technology tool, but it drops a huge bomb in the field of education and even changes the way many think about education. The contributors of this book, as well as probing the ethical conundrums presented by generative AI and other new technologies,

in AI ED summarize an overview of practice provided first hand experiences and suggested strategies and methods that are workable in the field This cutting edge volume will be of interest to researchers scholars and practitioners of education education technology sociology ethics and artificial intelligence It was originally published as a special issue of Computers in the Schools
