Reddit In The Us:

Understanding Reddit Elliot T. Panek, 2021-12-24 This book offers a comprehensive scholarly overview of Reddit one of the most popular and least studied social platforms of the early 21st century The book inspires new ways of thinking about Reddit considering it from multiple perspectives through a historical lens as a site where identity is forged as a democracy as a community and as a news aggregator and distributor By bringing theories from computer mediated communication communication studies and sociology to bear on original large scale observational analyses of Reddit s communities this book provides a uniquely comprehensive overview of the platform s first 15 years Understanding Reddit will help us make sense of how rapidly growing communities function in an era of mass online anonymity Serving both as a primer on how social behavior on Reddit plays out and as a way of locating it within multiple theoretical traditions the book will offer important insights to scholars and students in the disciplines of communication media studies information science internet and emerging media studies and sociology *Best of GoodNewsJimDotCom on Reddit.com* James Sager III, 2015-05-27 This is a collection of upvoted articles posted on www Reddit com by GoodNewsJimDotCom These articles are matters of faith and I hope your faith in Jesus increases God is love and loves us So love him and be loving to everyone The world would be a better place if more of us loved each other *The Royal Charters and Letters Patent Granted to the Burgesses of Stafford, A.D. 1206-1228 [1828]*. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender

studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide. These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms, algorithms, and attention economies. While populist movements are not new phenomena, such as QAnon, parental rights activism, and COVID denialism are uniquely of the internet, with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent. Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions. Using the lens of play and game studies, as well as the concept of metagaming, *Gaming Democracy* is a novel contribution to our understanding of online platforms and far right political activism. **Dragnet Nation** Julia Angwin, 2014-02-25. One of Publishers Weekly's Top 10 Business Economics Books. A fascinating inside look at who's watching you, what they know, and why it matters. Kirkus Reviews. A New York Times Bestseller. In *Dragnet Nation*, award-winning investigative journalist Julia Angwin reports from the front lines of America's surveillance economy, offering a revelatory and unsettling look at how the government, private companies, and even criminals use technology to indiscriminately sweep up vast amounts of our personal data. In a world where we can be watched in our own homes, where we can no longer keep secrets, and where we can be impersonated, financially manipulated, or even placed in a police lineup, Angwin argues that the greatest long-term danger is that we start to internalize the surveillance and censor our words and thoughts until we lose the very freedom that makes us unique individuals. Appalled at such a prospect, Angwin conducts a series of experiments to try to protect herself, ranging from quitting Google to carrying a burner phone, showing how difficult it is for an average citizen to resist the dragnets' reach. Her book is a cautionary tale for all of us, with profound implications for our values, our society, and our very selves. Draws on conversations with researchers, hackers, and IT experts surveying the modern dragnet tracking made possible by massive computing power, smaller devices, and cheap storage of data. Kirkus Reviews. A useful, well-reported study. Los Angeles Times. Informative, conversational, a helpful guide for readers seeking non-jargony information on minimizing their digital footprints. Columbia Journalism Review. Angwin, a longtime reporter on digital privacy issues for the Wall Street Journal, releases the contemporary and unfortunately nonfiction companion book to Orwell's 1984. *Dragnet Nation* examines the surveillance economy and its effect on free speech and thought, likely causing readers to rethink the next words they type into a search engine. LA Weekly. *Portfolio of Fragments Relative to the History and Antiquities, Topography and Genealogies of the County Palatine and Duchy of Lancaster* Matthew Gregson, 1869. United States of America Congressional Record, Proceedings and Debates of the 113th Congress Second Session Volume 160 - Part 4, *Longstone Records, Derbyshire ...* George Thomas Wright, 1900. **Learning Skilled Trades in the Workplace** Jo Mackiewicz, 2025-07-02. This open access book describes and explains a fifty-year-old woman's process of developing trade

competences Drawing from daily journal entries photographs interviews from 10 fabrication shops and online forums about trades this autoethnography details the author s learning process at Howe s Welding and Metal Fabrication where she has worked for over three years This book uses accessible everyday language and draws heavily from personal experience in trades taking the value of trades as a given and explaining the process of developing the depth and breadth of conceptual and procedural knowledges the competences required to work in repair and fabrication shops like Howe s This book combines a research derived framework for analyzing scaffolded learning and expertise development with stories of learning how and learning what Readers will gain a better understanding of knowledge development in trades workplaces including how one to one interactions scaffold knowledge how workers gradually enter a community of practice and how workplaces can constrain learning This book also gives readers a view of workplace learning over time and helps readers researchers and practitioners recognize opportunities for development toward expertise The book is useful for tradespeople especially newcomers to trades and in particular women Deeds Done Beyond the Sea Susan B.
