Global University Rankings and the Politics of Knowledge Michelle Stack, 2021-06-17 For many institutions to ignore your university's ranking is to become invisible a risky proposition in a competitive search for funding But rankings tell us little if anything about the education scholarship or engagement with communities offered by a university Drawing on a range of research and inquiry based methods Global University Rankings and the Politics of Knowledge exposes how universities became servants to the education industry and its impact Conceptually unique in its scope Global University Rankings and the Politics of Knowledge addresses the lack of empirical research behind university and journal ranking systems Chapters from internationally recognized scholars in decolonial studies provide readers with robust frameworks to understand the intersections of coloniality and Indigeneity and how they play out in higher education Contributions from diverse geographical and disciplinary contexts explore the political economy of rankings within the contexts of the Global North and South and examine alternatives to media driven rankings This book allows readers to consider the intersections of power and knowledge within the wider contexts of politics culture and the economy to explore how assumptions about gender social class sexuality and race underpin the meanings attached to rankings and to imagine a future that confronts and challenges cognitive environmental and social injustice

Research Handbook on University Rankings Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact

Future of the American Public Research University, 2007-01-01 Public research universities are an integral part of American society They play the leading role in educating future leaders in agriculture engineering the arts and sciences humanities business education and other professions Public research universities generate the new products processes inventions discoveries insights and interpretations that advance the human condition The dominant centers of higher education in many states public research universities are increasingly looked upon as major engines of economic development And through outreach they harness their human and intellectual capital to serve their sponsoring societies Yet state investment in public higher education is faltering and the role of public higher education is an area of ongoing debate This flagging support along with the growing perception that higher education is a private benefit rather than a public good has put public research universities at a crossroads With chapters by leading scholars this book tackles these challenging issues on learning resources on competition on the public and private benefits of public research universities and on how best to create an environment for engaged learning It brings into one collection informed arguments on the key issues facing the American public research university and serves as a valuable resource to students scholars and policy makers who are concerned about the future of these national assets

The Global Academic Rankings Game Maria Yudkevich, Philip G. Altbach, Laura E.

Rumbley,2016-03-02 The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic rankings Based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage Each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on policy practice and academic life in Australia Chile China Germany Malaysia the Netherlands Poland Russia Turkey the United Kingdom and the United States The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts *Rankings and the Reshaping of Higher Education*

Ellen Hazelkorn,2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn s first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars *Understanding Power and Leadership in Higher Education*

Mark Kretovics,2019-11-28 Within higher education power is often perceived negatively Rather than avoiding the idea of power this book explores the importance of embracing and effectively engaging power to affect positive change on campus Understanding Power and Leadership in Higher Education gives college and university administrators the tools to understand the relationship between leadership power and influence within higher education Highlighting real stories of effective college and university administrators this book helps readers understand and analyze the use of power preparing leaders for the realities of today s administrative environment

Five Dimensions of Quality Linda Suskie,2014-08-22 Meet calls for increased quality and understand accreditation expectations Author Linda Suskie is internationally recognized for her work in higher education assessment and she is a former vice president of a major regional accreditor In Five Dimensions of Quality A Common Sense Guide to Accreditation and Accountability in Higher Education she provides a simple straightforward model for understanding and meeting the calls for increased quality in higher education ever present in today s culture Whether your institution is seeking accreditation or not the five dimensions she outlines will help you to identify ways to improve institutional quality and demonstrate that quality to constituents For those wading through the accreditation process which has become more difficult in recent years due to increasing regulation and pressure for greater accountability Suskie offers expert guidance on understanding the underlying principles of the expectations of accrediting bodies Using the model presented here which is much easier to understand than the sometimes complex resources provided by individual accrediting bodies American colleges and universities can understand what they need to do to earn and maintain their regional accreditation as well as improve overall institutional quality for their students You ll be able to Identify ways to improve institutional quality Demonstrate the quality

of your institution to internal and external constituents Avoid wasting time and energy on misguided institutional processes to comply with accreditation requirements By focusing on why colleges and universities should take particular actions rather than only on what those actions should be Five Dimensions of Quality gives them the knowledge and strategies to prepare for a successful review It is an ideal resource for leaders accreditation committee members and everyone on campus

Entrepreneurship in Latin America Scott Tiffin,2004-12-30 Entrepreneurship drives growth in any economy It is about combining people with good ideas vision and courage who risk their own capital and their investors to develop new products and services It is about innovation technology development and wealth creation As a field of research and education it is relatively new and in the case of Latin America it is full of promise Studies undertaken by Babson College one of the world s premier centers of entrepreneurship show that Latin America is a hotbed of new business creation but largely without the educational or institutional infrastructure to support it This volume the first of its kind documents the initial state of the art in Latin American entrepreneurship in practice research and education This volume the first of its kind documents the initial state of the art in Latin American entrepreneurship in practice research and education Featuring contributions from local experts the book explores a wide range of issues including startups venture capital and angel financing technology incubators family businesses and management and gender issues against the backdrop of innovations in education and government policies designed to develop entrepreneurial skills and promote economic growth through new business creation

The Alumni Factor Amanda Atkins,2013-09-10 Most college and university ranking guides give insight into who comes into the college The Alumni Factor is more interested in who comes out *College and University* ,2006 **Demystifying the Academic Research Enterprise** Kelvin K. Droegemeier,2023-12-19 What next generation scholars need to know in order to thrive and how they can actively participate in shaping the academic research enterprise The academic research enterprise is highly complex involving multiple sectors of society and a vast array of approaches In Demystifying the Academic Research Enterprise Kelvin K Droegemeier shows next generation scholars across all disciplines how to become more productive earlier in their career as well as how to help shape the academic research enterprise The topics covered include public perceptions of scholarly work and its use in policy understanding the big picture of funding and national priorities as well as identifying funding sources research methods collecting data and materials writing grant proposals

publishing results ethical conduct bias and peer review intellectual property and compliance regulations partnerships and collaboration diversity equity and inclusion and the future of research Droegemeier's two principal goals are to enhance and accelerate scholars understanding of the academic research process and to democratize that understanding particularly at institutions that traditionally are underrepresented or lack robust resources While intended for undergraduate and graduate students postdoctoral scholars and early career faculty Demystifying the Academic Research Enterprise is also relevant to mid career and senior faculty research administrators funding organizations congressional staff policymakers and the general public Droegemeier places scholars in a broader national and international context not as passive recipients of the existing system but as key actors who actively participate in helping to set priorities determine policies drive systemic change and advance knowledge

One Size Doesn't Fit All S. Charles Malka, Robert H. Tiell, 2025-11-20 Current and future societal developments are likely to affect various populations differently Tectonic shifts new or accelerated by Covid 19 have affected many populations in distinctively different ways that cannot be ignored given their collective impact on workforces and workplaces alike Their story must be told The USA's changing demographics also must be considered Based on US Census data by the year 2045 the nation is expected to become a minority majority country In other words all minorities when bundled together will then become a majority for the first time in US history This in turn will have significant implications for large segments of society including service providers who specialize and work closely with many of these different populations Diversity will be manifested in a variety of ways It is essential as a society to stop and consider what this means for delivering quality services to so many different populations each one of which will likely present with its own unique set of circumstances dynamics and needs that must be examined and addressed One Size Doesn't Fit All is unique in addressing this issue and doing so in such a way that maximizes the positive impact these special populations can have on the service delivery system and the country's future economic well being It offers a service delivery driven best practices approach for working with diverse special populations with each chapter focusing on a different yet important population One Size Doesn't Fit All readily assists practitioners and policy makers with how they might best serve the emerging needs of many different populations with whom they likely interact serve direct and or fund
