**Digital Technology for Humans** Robert Hanna, 2025-06-02 Digital ethics and AI

ethics are of fundamental importance for humankind and its future Hanna shows how specifically Kantian moral principles can be applied to the design production and implementation of digital technology with a special focus on how these principles flow from the concept and fact of human dignity His core thesis is that digital technology is nothing more and nothing less than a tool created by humankind for the betterment of humankind whose use should be constrained by Kantian moral principles grounded in human dignity This thesis promises to stimulate new research on Kantian approaches to digital ethics and AI ethics It also has important political implications including a clarion call for us to engage in the self conscious self disciplined and free exercise of our own innate cognitive affective and practical capacities in the face of new and exceptionally powerful forms of digital technology e g chatbots that threaten to undermine our ability to think feel and act for ourselves

*Abductive Minds: Essays in Honor of Lorenzo Magnani - Volume 1* Selene Arfini, 2025-09-26 This book the first of two volumes provides novel perspectives on the study of abduction by analyzing both Magnani's ample investigation of the subject and discussing its rising importance in today's epistemology and philosophy of science Notwithstanding the long history of the concept which has been studied since its analysis in Aristotle's *Organon* in the last fifty years it has known a resurgent interest in the epistemological literature since it is an ampliative inference deemed to be at the core of creative leaps and acts of discovery For these reasons different open questions still bother interested researchers which constraints affect abductive reasoning when a hypothesis is evaluated or selected Should we adopt a unified view on abduction or maintain a pluralistic perspective regarding its forms and functions What kinds of models can be used in abductive reasoning This last question in particular shows how the topics of the two parts of the volume are intrinsically connected and ensures they are of great importance to those interested in epistemology philosophy of science mathematical logic and AI

**The Social Fabric of Understanding** Federica Isabella Malfatti, 2025-08-05 This book is a journey of in depth exploration into the social dimensions of understanding As human beings we strive to understand the world around us The path to understanding however is rarely walked alone we walk the path with others We understand more together by joining forces than we would understand alone When we understand something and come to see things clearly it is probably because someone else has taught us enlightened us shared his or her perspective with us or shaped our environment so that our attempts to make sense of the world were likely to succeed Understanding then is a social rather

than an individual achievement The book will be of great interest to philosophers working in epistemology philosophy of science and the philosophy of education
