Alibaba Duncan Clark, 2024-03-19 The story of Alibaba s rise along with Jack Ma s offers a fascinating window onto China s staggering transformation The Wall Street Journal In just a decade and half Jack Ma a man who rose from humble beginnings and started his career as an English teacher founded and built Alibaba into the second largest Internet company in the world The

company's 25 billion IPO in 2014 was the world's largest valuing the company more than Facebook or Coca Cola. Alibaba today runs the e-commerce services that hundreds of millions of Chinese consumers depend on every day providing employment and income for tens of millions more. A Rockefeller of his age, Jack has become an icon for the country's booming private sector and as the face of the new consumerist China is courted by heads of state and CEOs from around the world. Granted unprecedented access to a wealth of new material including exclusive interviews, Clark draws on his own first-hand experience of key figures integral to Alibaba's rise to create an authoritative, compelling narrative account of how Alibaba and its charismatic creator have transformed the way that Chinese exercise their new-found economic freedom, inspiring entrepreneurs around the world and infuriating others, turning the tables on the Silicon Valley giants who have tried to stand in his way. An expert insider with unrivaled connections, Clark has a deep understanding of Chinese business mindset. He illuminates an unlikely corporate titan as never before and examines the key role his company has played in transforming China while increasing its power and presence worldwide. A must read for anyone hoping to navigate China's new economy.

Financial Times F & S Index United States Annual ,2007 *The Business of Aspiration* Ana Andjelic,2020-10-26

The Business of Aspiration is about how consumers shifting status symbols affect business and brand strategy. These changing status symbols like taste, aesthetic innovation, curation, or environmentalism create the modern aspirational economy. In the traditional economy, consumers signaled their status through collecting commodities, Instagram followers, airline miles, and busy back-to-back schedules. By contrast, in the aspirational economy, consumers increasingly convey status through collecting knowledge, taste, micro communities, and influence. This new capital changes the way businesses and entire markets operate, and yet the modern aspirational economy is still an under-explored area in business and culture. The Business of Aspiration changes that. In this book, marketers will find examples, analyses, and tools on how brands can successfully grow in the modern aspirational economy. The Business of Aspiration answers questions like: what is good for my brand long term? how is this business decision going to impact our culture? or what are the main objectives of our growth? Marketers will learn to shift their brand narrative and competitive strategy to create and distribute new brand symbols and to ensure that their brand's products and services create both monetary and social value.
