Everybody Hurts Rebecca Williams, 2018-05 Have you ever been a fan of a show that was canceled abruptly or that killed off a beloved character unexpectedly? Or perhaps it was rebooted after a long absence and now you're worried it won't be as good as the original? Anyone who has ever followed entertainment closely knows firsthand that such transitions can be jarring. Indeed, for truly loyal fans, the loss can feel very real, even throwing their own identity into question. Examining how fans respond to and cope with transitions, endings, or resurrections in everything from band breakups (R.E.M. to show cancellations) to Hannibal to closing down popular amusement park rides, this collection brings together an eclectic mix of scholars to analyze the various ways fans respond to change. Essays explore practices such as fan discussion and creating alternative fan fictions, as well as cases where fans abandon their objects of interest completely and move on to new ones. Shedding light on how fans react both individually and as a community, the contributors also trace the commonalities and differences present in fandoms across a range of media, and they pay close attention to the ways fandom operates across paratexts and transmedia forms, including films, comics, and television. This fascinating approach promises to make an important contribution to the fields of fan media and cultural studies and should appeal widely to students, scholars, and anyone else with a genuine interest in understanding why these transitions can have such a deep impact on fans' lives.

Out of This World Library Programs Joel A. Nichols, 2017-02-06 Focusing on the most compelling titles across the vast area of imaginative fantasy and science fiction literature and media, this book showcases creative ways to build on existing interest in these genres and promote reading literacy and critical thinking. Science fiction and fantasy stories captivate the imaginations of youth and adults even today when real-life technological developments often border on the unbelievable. We see evidence of the universal appeal of sci-fi and fantasy-themed tales in popular books, movies, and television series, from *The Hunger Games*, *The Martian*, and *Star Wars* to *Jessica Jones* and *The Man in the High Castle*. This guide provides avenues for making use of what naturally interests young audiences, pre-teen through emerging or new adult, with some 50 programs based on speculative fiction. For each of the literature-based programs, the book provides a description of the project that identifies the appropriate age level and its goals and learning objectives, as well as the duration of time and materials needed. While the selection of titles is diverse, special emphasis is given to media and books created by women and people of color. The step-by-step directions, annotation of the book on which the project is based, list of related titles, and special tips ensure that you'll be able to easily implement the program in your classroom or

library Most of the programs have a technology related component but can be adapted to be done as traditional crafts All of the programs are appropriate for students in English and creative writing classes as well as for youth or young adults in a public library setting

Primal Screams Mary Eberstadt,2019-08-05 Who am I The question today haunts every society in the Western world Legions of people especially the young have become unmoored from a firm sense of self To compensate they join the ranks of ideological tribes spawned by identity politics and react with frenzy against any perceived threat to their group As identitarians track and expose the ideologically impure other citizens face the consequences of their rancor a litany of isms run amok across all levels of cultural life the free marketplace of ideas muted by agendas shouted through megaphones and a spirit of general goodwill warped into a state of perpetual outrage How did we get here Why have we divided against one another so bitterly In *Primal Screams* acclaimed cultural critic Mary Eberstadt presents the most provocative and original theory to come along in recent years The rise of identity politics she argues is a direct result of the fallout of the sexual revolution especially the collapse and shrinkage of the family As Eberstadt illustrates humans have forged their identities within the kinship structure from time immemorial The extended family in a real sense is the first tribe and teacher But with its unprecedented decline across various measures generations of people have been set adrift and can no longer answer the question Who am I concerning primordial ties Desperate for solidarity and connection they claim membership in politicized groups whose displays of frantic irrationalism amount to primal screams for familial and communal loss Written in her impeccable style and with empathy rarely encountered in today's divisive discourse Eberstadt's theory holds immense explanatory power that no serious citizen can afford to ignore The book concludes with three incisive essays by Rod Dreher Mark Lilla and Peter Thiel each sharing their perspective on the author's formidable argument

Going Low Finbarr Curtis,2022-07-05 Liberalism puts its trust in civil discourse and rational argument Today its opponents enthusiastically flout these norms making a show of defying so called political correctness In the Trump era and beyond right wing figures delight in sheer offensiveness What is at stake in breaking the rules of civility to own the libs *Going Low* examines how the offensive style of contemporary

politics challenges liberal democratic institutions Considering the rise of illiberal politics and debates about the limits of free speech Finbarr Curtis draws on the insights of religious studies to rethink provocation and transgression He argues that the spectacle of brazenly violating taboos is a show of dominance over a supposedly censorious liberalism Profaning liberal pieties is the ultimate form of winning Curtis contends that deliberate offensiveness dovetails with the privatization of public goods both represent the refusal to accommodate the sensibilities of others in a diverse society Going Low offers a series of essays that recast recent controversies including Trump's reality TV presidency white evangelical complaints of liberal bigotry bakers who refuse to bake cakes for LGBTQ weddings and hostility toward the activism of athletes and college students Together these essays shed new light on contemporary political discourse and reveal why illiberalism has turned to profane politics for a profane age
