Today Netflix has more than 25 million subscribers and annual revenues above 3 billion Yet long term success or even survival is still far from guaranteed Journalist Gina Keating recounts the absorbing fast paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business First it engaged in a grueling war against video store behemoth Blockbuster transforming movie rental forever Then it jumped into an even bigger battle for online video streaming against Google Hulu Amazon and the big cable companies Netflix ushered in such innovations as DVD rental by mail a patented online queue of upcoming rentals and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals Yet for all its success Netflix is still a polarizing company Hastings is often heralded as a visionary he was named Business Person of the Year in 2010 by Fortune even as he has been called the nation's worst CEO Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet

Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter Keating makes this tale as absorbing as it is important Multimedia Networks Hans W. Barz, Gregory A. Bassett, 2016-01-14 The transportation of multimedia over the network requires timely and errorless transmission much more strictly than other data This has led to special protocols and to special treatment in multimedia applications telephony IP TV streaming to overcome network issues This book begins with an overview of the vast market combined with the user's expectations The basic mechanisms of the audio video coding H.26x etc are explained to understand characteristics of the generated network traffic Further chapters treat common specialized underlying IP network functions which cope with multimedia data in conjunction with special time adaptation measures Based on those standard functions these chapters can treat uniformly SIP H.248 High End IP TV Webcast Signage etc A special section is devoted to home networks which challenge high end service delivery due to possibly unreliable management The whole book treats concepts described in accessible IP based standards and which are implemented broadly The book is aimed at graduate students practitioners with good basic knowledge in computer networking It provides the reader with all concepts of currently used IP technologies of how to deliver multimedia efficiently to the end user **PC Mag**, 2007-12-25 PCMag.com is a leading
