Gaming Democracy Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley s emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism

As a digital marketer and doctor of philosophy in psychology she brings both practical and academic insights to explain the psychology behind scarcity why it has such an immense impact on decision making and how used correctly and ethically it can influence the people who buy your products or services. In these pages you'll gain a deeper understanding of why and how scarcity works in business and specifically how different types of scarcity messages supply related demand related time related or limited edition affect our brains. You'll see it in action from multiple perspectives through case studies research findings and eye opening interviews with current and former executives from brands that include McDonald's Harry David and 1 800 Flowers as well as real life customers' firsthand experiences.
