Laffer,Jeanne Cairns Sinquefield,Brian Domitrovic,2022-09-27 The definitive history of the effect of the income tax on the economy Ever since 1913 when the United States first imposed the income tax via constitutional amendment the top rate of that tax has determined the fate of the American economy When the top rate has been high as in the late 1910s the 1930s 1940s 1950s and 1970s the response of those with money and capital has been to curtail real economic activity in favor of protecting assets and income streams Huge declines have come to the economy in these circumstances The most brutal example was the Great Depression itself When the top tax rate has been cut and held at reduced levels as in the 1920s the 1960s in the long boom of the 1980s and 1990s and briefly in the late 2010s astonishing reversals have occurred The rich have brought their money out of hiding and put it to work in the economy The huge swings in the American economy since 1913 have had an inverse relationship to income tax rates *Tax Systems and Tax Reforms in South and East Asia* Luigi Bernardi,Angela Frascini,Parthasarathi Shome,2007-01-24 This book examines the present status recent tax reforms and planned tax policies in some South and East Asia countries since the 1990s The evidence is presented in a user friendly manner but at the same time uses technically sophisticated methods The main countries studied are China India Japan Malaysia South Korea and Thailand It is unique for being the first systematic treatment of the topic hitherto the information available has been widely dispersed and difficult to access It should prove to be a natural companion to two previous books on taxation published by Routledge and also edited by Luigi Bernardi **Journal of the House of Representatives of the United States** United States.
