Nicolas Forgue, 2018-11-11 The morning is the first moment of the day Every morning is a new day that begins In this day that begins you have the choice to start it well or to start it in bad conditions The productive morning is the first steps of the day from the awakening This productive morning routine is the one that will allow you to do activities that you enjoy before you even start your work day it is the one that will allow you to see your whole day again by starting on the best possible bases is the one that will allow you to be effective in the morning to attack the rest of the day serenely it is still the one that will offer you a healthy lifestyle that you would not have suspected before The morning can change your daily the morning can change all your days By getting up in the morning and following a routine to start your day by organizing the most difficult tasks from the beginning of the day or by taking habits that will give you energy you organize your day to follow the rhythm that will boost you Too many people leave this moment alone thinking that it does not matter simply because they have not experienced the benefits of a successful morning Too many people destroy part of their day because of a missed awakening Now you have to choose between staying in a difficult morning routine that does not bring you real values added over the rest of your day and even your lifestyle or make the choice to change your life to live better Change your day see your everyday life differently Own in the morning to own your day this is the motto The future belongs to those who get up early as self esteem belongs to those who get up early as success belongs to those who get up early **The Ultimate**
