Sleep Hacks Today:

Technosleep Catherine Coveney, Michael Greaney, Eric L. Hsu, Robert Meadows, Simon J. Williams, 2023-06-25 This book draws on a variety of substantive examples from science technology medicine literature and popular culture to highlight how a new technoscientifically mediated and modified phase and form of technosleep is now in the making in the global north at least and to discuss the consequences for our relationships to sleep the values we accord sleep and the very nature and normativities of sleep itself The authors discuss how technosleep at its simplest denotes the coming together or entanglements of sleep and technology and sensitizes us to various shifts in sleep technology relations through culture time and place In doing so it pays close attention to the salience and significance of these trends and transformations to date in everyday night life their implications for sleep inequalities and the related issues of sleep and social justice they suggest

1984 and Philosophy Ezio Di Nucci,Stefan Storrie,2018-05-18 Although the year 1984 is hurtling back into the distant past Orwell s novel Nineteen Eighty Four continues to have a huge readership and to help shape the world of 2084 Sales of Orwell s terrifying tale have recently spiked because of current worries about alternate facts post truth and fake news 1984 and Philosophy brings together brand new up to the minute thinking by philosophers about Nineteen Eighty Four as it relates to today s culture politics and everyday life Some of the thinking amounts to thoughtcrime but we managed to sneak it past the agents of the Ministry of Truth so this is a book to be read quickly before the words on the page mysteriously transform into something different Who s controlling our lives and are they getting even more levers to control us Is truth objective or just made up What did Orwell get right and did he get some things wrong Are social media opportunities for liberation or instruments of oppression How can we fight back against totalitarian control Can Big Brother compel us to love him How does the language we use affect the way we think Do we really need the unifying

power of hate Why did Orwell make Nineteen Eighty Four so desperately hopeless Can science be protected from poisonous ideology Can we really believe two contradictory things at once Who surveils the surveilers **India Today** ,2007

Unstressable Mo Gawdat, Egypt,Alice Law,2024-04-30 Mo Gawdat is an engineer What most of us see as insurmountable problems he sees as systems overloads to tackle and solve Unstressable breaks stress into inputs and effects classifying human stressors as stress to the mind stress to emotions stress to the body and stress to the soul Once classified Gawdat and co author Alice Law show readers how stress can be predicted and once predicted prevented Unstressable illuminates for readers how most of us deal with the unpleasant anxiety producing and even miserable or tragic events in our lives stress is always a by product leading directly to inability to cope health problems and cratered confidence Gawdat and Law guide readers to both heart centred and science based solutions They ll train readers to Develop habits and attitudes of listening and learning that limit stress Learn the language of de stressing mind emotions body and soul Respond not react Release self criticism insomnia and lethargy Increase energy focus and confidence Unstressable is a handbook for those who understand that stress isn t what happens to you it s how you handle what happens to you It s a practical and rounded approach to an ever increasing modern day problem

Sleep Hacks Brian Jeff,2016-05-03 Do you have trouble figuring out why you cannot achieve a good night s sleep I mean no matter how many hours you spend in bed you wake up feeling as though you have not slept Well this might be a bad news but the reality is that you have a condition the expert calls sleep apnea There are basically two types of sleep apnea Obstructive sleep apnea OSA and Central sleep apnea CSA However obstructive sleep apnea is the more common type It is the outcome from the blockage of the airway mostly as a result of the soft tissue at the back of your throat collapsing when you are asleep Well when it comes to central sleep apnea the airway is not blocked but the brain fails to signal to the muscles to breath as a result of the instability in the respiratory control Centre Yes sleep apnea is a sleep disorder that occurs when your breathing is interrupted during sleep In fact if you suffer from this condition you will be experiencing your breathing being repeatedly interrupted during sleep in most cases this happen many times during your sleep Now the truth of the matter is that at such time your brain as well as the rest of your body may not get enough essential supply of the oxygen for the normal body functions It is however very important that you get a proper diagnosis of the condition if you have it Well in any case if you think that you have been diagnosed with the condition you don t need to worry I mean in this book you will get all the tips you need to manage the condition and in fact the different ways on how to cure sleep apnea What you need to do right now is to get your copy and start taking the steps to be apnea free or at least escape the looming dangers it portends
