Icloud Act Practice Tips:

The Efficient Practice David L. Lawrence, 2014-02-17 An essential guide to tools and techniques for achieving efficiency productivity and profitability in financial advisory firms As a profession financial advisors have been very well educated on how to be a financial advisor but the industry does a poor job of preparing financial advisors to be great business owners This book presents the Profit Driven Architecture a visual way of viewing the operational structure of a financial practice Provides a concrete way of understanding and improving the interrelationship of different parts of the operations of a financial practice firm Explains how to increase the efficiency productivity and profitability of the firm recognizing the interrelationships with one another Reveals how to increase the capacity and value of the practice Given an aging population of financial advisors and increased focus on succession planning increasing the value of a financial practice is a key deliverable of efficiency and this book showcases the best ways to do so

Policing Digital Crime Robin Bryant, 2016-04-22 By its very nature digital crime may present a number of specific detection and investigative challenges The use of steganography to hide child abuse images for example can pose the kind of technical and legislative problems inconceivable just two decades ago The volatile nature of much digital evidence can also pose problems particularly in terms of the actions of the first officer on the scene There are also concerns over the depth of understanding that generic police investigators may have concerning the possible value or even existence of digitally based evidence Furthermore although it is perhaps a cliché to claim that digital crime and cybercrime in particular respects no national boundaries it is certainly the case that a significant proportion of investigations are likely to involve multinational cooperation with all the complexities that follow from this This groundbreaking volume offers a theoretical perspective on the policing of digital crime in the western world Using numerous case study examples to illustrate the theoretical material introduced this volume examine the organisational context for policing digital crime as well as crime prevention and detection This work is a must read for all academics police practitioners and investigators working in the field of digital crime
