Posthumanism in Practice Christine Daigle, Matthew Hayler, 2023-01-12 Problematic assumptions which see humans as special and easily defined as standing apart from animals plants and microbiota both consciously and unconsciously underpin scientific investigation arts practice curation education and research across the social sciences and humanities This is the case particularly in those traditions emerging from European and Enlightenment philosophies Posthumanism disrupts these traditional humanist outlooks and interrogates their profound shaping of how we see ourselves our place in the world and our role in its protection In Posthumanism in Practice artists researchers educators and curators set out how they have developed and responded to posthumanist ideas across their work in the arts sciences and humanities and provide examples and insights to support the exploration of posthumanism in how we can think create and live In capturing these ideas Posthumanism in Practice shows how posthumanist thought can move beyond theory inform action and produce new artefacts effects and methods that are more relevant and more useful for the incoming realities for all life in the 21st century

Island Tinkerers Honghong Tinn, 2025-01-07 How Taiwan rose to global prominence in high tech manufacturing from computer maker to the world's leading chip manufacturer How did Taiwan a former Japanese colony and the last fortress of the defeated Chinese Nationalists ascend to such heights in high tech manufacturing In Island Tinkerers Honghong Tinn tells the critical history of how hobbyists and enthusiasts in Taiwan including engineers technologists technocrats computer users and engineers turned entrepreneurs helped transform the country with their hands on engagement with computers Rather than engaging in wholesale imitation of US sources she explains these technologists tinkered with imported computing technology and experimented with manufacturing their own versions resulting in their own brand of successful innovation Defying the stereotype of the West innovates and the East imitates Tinn tells the story of Taiwanese technologists efforts over the past six decades Beginning in the 1960s they

grappled with the black boxed computers that were newly available through international technical aid programs Shortly after multinational corporations that outsourced transistor and integrated circuit assembly overseas began employing Taiwanese engineers and factory workers Island tinkerers developed strategies to adapt modify assemble and work with computers in an inventive manner It was through this creative and ingenious tinkering with computers that they were able to gain a better understanding of the technology opening the door to future manufacturing endeavors that now include Acer Foxconn Asus and Taiwan Semiconductor Manufacturing Company TSMC

The X86 Microprocessors: Architecture and Programming (8086 to Pentium) Lyla B. Das,2010-09 *An Economic Analysis on Automated Construction Safety* Rita Yi Man Li,2017-08-09 This book addresses information technologies recently applied in the field of construction safety Combining case studies literature reviews and interviews to study the issue it presents cutting edge applications of various information technologies ITs in construction in different parts of the world together with a wealth of figures tables and examples Though primarily intended for researchers and experts in the field the book will also benefit graduate students

PC Mag ,2007-02-06 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology

Introduction to Machine Learning with Security Pramod Gupta,Naresh Kumar Sehgal,John M. Acken,2024-07-12 This book provides an introduction to machine learning security and cloud computing from a conceptual level along with their usage with underlying infrastructure The authors emphasize fundamentals and best practices for using AI and ML in a dynamic infrastructure with cloud computing and high security preparing readers to select and make use of appropriate techniques Important topics are demonstrated using real applications and case studies

Introduction to Machine Learning in the Cloud with Python Pramod Gupta,Naresh K. Sehgal,2021-04-28 This book provides an introduction to machine learning and cloud computing both from a conceptual level along with their usage with underlying infrastructure The authors emphasize fundamentals and best practices for using AI and ML in a dynamic infrastructure with cloud computing and high security preparing readers to select and make use of appropriate techniques Important topics are demonstrated using real applications and case studies

Large Language Models Projects Pere Martra,2024-09-18 This book offers you a hands on experience using models from OpenAI and the Hugging Face library You will use various tools and work on small projects gradually applying the new knowledge you gain The book is divided into three parts Part one covers techniques and libraries Here you ll explore different techniques through small examples preparing to build projects in the next section You ll learn to use common libraries in the world of Large Language Models Topics and technologies covered include chatbots code generation OpenAI API Hugging Face vector databases LangChain fine tuning PEFT fine tuning soft prompt tuning LoRA QLoRA evaluating models and Direct Preference Optimization Part two focuses on projects You ll create projects understanding design decisions Each project may have more than one possible

implementation as there is often not just one good solution You ll also explore LLMOps related topics Part three delves into enterprise solutions Large Language Models are not a standalone solution in large corporate environments they are one piece of the puzzle You ll explore how to structure solutions capable of transforming organizations with thousands of employees highlighting the main role that Large Language Models play in these new solutions This book equips you to confidently navigate and implement Large Language Models empowering you to tackle diverse challenges in the evolving landscape of language processing What You Will Learn Gain practical experience by working with models from OpenAI and the Hugging Face library Use essential libraries relevant to Large Language Models covering topics such as Chatbots Code Generation OpenAI API Hugging Face and Vector databases Create and implement projects using LLM while understanding the design decisions involved Understand the role of Large Language Models in larger corporate settings Who This Book Is For Data analysts data science Python developers and software professionals interested in learning the foundations of NLP LLMs and the processes of building modern LLM applications for various tasks *UWB Communication Systems:*

Conventional and 60 GHz Shahriar Emami,2013-04-23 In this book the author examines 60 GHz and conventional UWB The book introduces the fundamentals architectures and applications of unified ultra wideband devices The material includes both theory and practice and introduces ultra wideband communication systems and their applications in a systematic manner The material is written to enable readers to design analyze and evaluate UWB communication systems **Chinese**

Acquisitions in Developed Countries Alessandra Vecchi,2018-12-15 This book assesses Chinese acquisitions in developed countries evaluates the drivers and opportunities and above all explores the major operational challenges It discusses topics such as cross cultural issues integration strategies risk and resilience the influence of emerging technologies servitization impacts on reshoring corporate social responsibility branding strategies knowledge management and transfer of best practices While emerging market multinational corporations EMNCs use of mergers and acquisitions as a strategic vehicle has received considerable attention much less is known about their post entry activities such as the implementation of post acquisition and integration strategies It can be expected that compared with their Western counterparts EMNCs will face radically different challenges that may undermine the success of their products brands and marketing Addressing these issues by means of a case study approach this book is an ideal teaching resource for a variety of courses at both undergraduate and postgraduate level It also appeals to academics researchers and practitioners with a keen interest in manufacturing industry *Information Systems for Intelligent Systems* Chakchai So In,Narendra S. Londhe,Nityesh

Bhatt,Meelis Kitsing,2025-04-30 This book includes selected papers presented at the World Conference on Information Systems for Business Management ISBM 2024 held in Bangkok Thailand on September 12 13 2024 It covers up to date cutting edge research on data science information systems infrastructure and computational systems engineering systems business information systems and smart secure systems
