Gillick M.D.,2017-10-06 Since the introduction of Medicare and Medicaid in 1965 the American health care system has steadily grown in size and complexity Muriel R Gillick takes readers on a narrative tour of American health care incorporating the stories of older patients as they travel from the doctor s office to the hospital to the skilled nursing facility and examining the influence of forces as diverse as pharmaceutical corporations device manufacturers and health insurance companies on their experience A scholar who has practiced medicine for over thirty years Gillick offers readers an informed and straightforward view of health care from the ground up revealing that many crucial medical decisions are based not on what is best for the patient but rather on outside forces sometimes to the detriment of patient health and quality of life Gillick suggests a broadly imagined patient centered reform of the health care system with Medicare as the engine of change a transformation that would be mediated through accountability cost effectiveness and culture change **Reforming Occupational Licensing in the US** Clifford Winston,2024-12-28 Nearly one third of US workers must obtain a license from a government agency to perform their jobs legally This impacts employees across all areas including lawyers doctors and accountants as well as florists hairdressers physical therapists and plumbers The justification for occupational licensing is that potential consumers allegedly lack the information and knowledge to judge the competence of a service provider This necessitates a licensing system built to ensure that customers are served by people who have received adequate training and certification in their profession While there are recognizable benefits of occupational licensing the training and certification requirements create barriers to entry for employees or those entering the profession These barriers can limit competition raise service costs and restrict consumer access to essential services Recent empirical work suggests that consumers have incurred these costs without being adequately protected from incompetent or unscrupulous service providers This book addresses this situation head on In light of occupational licensing s shortcomings the authors of this book propose and analyze constructive reforms assessing their effects on key professions such as law medicine and finance Chapters identify the significant costs of current policies and they recommend practical reforms that rely more on market forces The resulting book provides new ways to reduce licensing costs without
