March-Russell, 2009-05-15 This new general introduction emphasises the importance of the short story to an understanding of modern fiction In twenty succinct chapters the study paints a complete portrait of the short story its history culture aesthetics and economics European innovators such as Chekhov Flaubert and Kafka are compared to Irish New Zealand and British practitioners such as Joyce Mansfield and Carter as well as writers in the American tradition from Hawthorne and Poe to Barthelme and Carver Fresh attention is paid to experimental postcolonial and popular fiction alongside developments in Anglo American Hispanic and European literature Critical approaches to the short story are debated and reassessed while discussion of the short story is related to contemporary critical theory In what promises to be essential reading for students and academics the study sets out to prove that the short story remains vital to the emerging culture of the twenty first century General Catalogue Oxford University Press, 1916 Claims and Speculations Janet Floyd, 2012-11 Janet Floyd American studies King's College London UK looks at how gold rush settings have been reflected in American high and popular arts and what these works have to say about US cultures of miners artists writers and readers This study looks at both popular and literary books set in and responding to the metal strikes in the American West between 1865 and 1905 Floyd also brings in visual art as well as related mining cultures such as Australian mate communities but restricts this study to works produced in the gold rush era Though it is written as a work of academic scholarship the book's prose is as skillful as many works of popular nonfiction For this reason it will appeal to a readership beyond special interest scholars in the

subject As a writer on literature she cautions against making any theoretical argument that denies the range of human beings and motives in the American West She explores the complex and multifaceted situations reflected both by gold rush communities and by the works of their own era that used them as their setting Her own analyses reflect but cannot be reduced to a background in women s studies Throughout the author considers the idea that the people the art and the attitudes of the frontier s toughest places are more slippery than either liberal or conservative scholars have liked to imagine Recommended both for its prose and its interest in the actual lives and cultures reflected in literary studies Annotation 2013 Book News Inc Portland OR booknews com **The Scarlet Letter (Original World's Classics)** Nathaniel

The contemporary context Brian R. Harding,1998 **The Friction of the Frame** Simone Heller-Andrist,2012-03-07 In her study Simone Heller Andrist applies the Kantian and Derridean parergon to English literature The parergon is a specific type of frame that interacts with the work it surrounds in a fashion likely to influence or even manipulate our reading of the work On the basis of this interaction Derrida s parergon becomes a valid methodological tool that allows a close analysis of the mechanisms involved in the reading process The manipulative force of a textual construct is apparent through the occurrence of friction namely incongruities or gaps we notice during the reading process Friction is thus on the one hand the main indicator of parergonality and on the other the prime signal for a potential conditioning of the reader As readers we not only have to analyze the interaction between work and parergon but must also constantly reflect upon our own position with regard to the text that we read By means of the concept of the parergon we can approach not only paratextual narrative or

discursive frames but also intertextual relationships Since the application of the concept is based on a basic textual constellation and an internal mechanism its range is wide and transcends or complements previously established textual categories *The Concise Oxford Dictionary of Current English* Henry Watson Fowler, Francis George Fowler, 1928
