challenging nature of the discursive struggle for Taiwan becomes apparent The book consists of a collection of articles initially created by the authors during their research in Taiwan over several years first at National Yang Ming Chiao Tung University and then at National Cheng Kung University The articles organized into different chapters cover various disciplines such as political philosophy geopolitics history discourse analysis and anthropology reflecting the diverse educational backgrounds of the authors Despite their diversity all chapters are deeply connected to the discursive struggle over Taiwan Ultimately by offering a nuanced perspective that challenges prevailing narratives the authors provide a deliberately controversial yet refreshing viewpoint that advocates for a policy of empathy and negotiation Such approach goes beyond mere dialogue and diplomacy emphasizing the need for coexistence and peaceful living among different worlds
