Housekeeping ..., 1918 **Beitrag des ÖGD für ein zukünftiges Pandemiemanagement in Österreich** Mathias Reinhart, 2025-02-03 Masterarbeit aus dem Jahr 2025 im Fachbereich Gesundheit Gesundheitswissenschaften FH Joanneum Graz Bad Gleichenberg Sprache Deutsch Abstract Die COVID 19 Pandemie hat die Schwächen des öffentlichen Gesundheitsdienstes (GD) offengelegt und gezeigt wie wichtig ein effektives Pandemiemanagement ist. Dieses Buch analysiert die Rolle des GD in Österreich, identifiziert Herausforderungen und bietet konkrete Lösungsvorschläge für ein zukunftssicheres Gesundheitssystem. Basierend auf fundierter Literaturrecherche und Experteninterviews liefert es praxisnahe Empfehlungen, internationale Best Practice Beispiele und innovative Ansätze, um den GD nachhaltig zu stärken. Ein unverzichtbarer Leitfaden für Fachleute im Gesundheitswesen, politische Entscheidungsträger und alle, die sich für die Weiterentwicklung des Pandemiemanagements interessieren. Die konkreten Ziele dieser Arbeit bestehen darin, die Pandemiebewältigung innerhalb des GD in Zusammenarbeit mit anderen Verwaltungsebenen zu reflektieren und Optimierungspotenziale für eine Bearbeitung des Pandemieplans zu finden. Ein weiteres Ziel ist es, internationale Best Practice Beispiele zu identifizieren. Die Forschungsfrage lautet: Wie kann der öffentliche Gesundheitsdienst aus Expertensicht zukünftig auch innerhalb eines etwaigen neuen österreichischen Pandemieplans effektiver zur Bewältigung von Pandemien beitragen? Es gibt jedoch auch klare Nicht-Ziele: Innerhalb dieser Arbeit wird erstens kein neuer Pandemieplan erstellt, weil es den Rahmen dieses Forschungsvorhabens sprengen würde. Zweitens werden die Erfahrungen von Patient:innen mit einer COVID-19 Erkrankung während der Pandemie nicht in die Untersuchung einbezogen, da die geplanten Interviews ausschließlich mit Fachleuten geführt werden sollen und keine Befragungen von Patient:innen vorgesehen sind. The Billboard, 1926 English Mechanics, 1929 Leadership 2.0 in processes of a sustainable change
 Prof. Dr. Michael Kurwan, 2025-06-30

Document from the year 2025 in the subject Leadership and Human Resources
 Leadership language English abstract
 In order to successfully implement sustainable changes in a company in the context of change processes, strong leadership is required at the top of a company which should have a great deal of empathy and a sure instinct in order to position the company in the market in the long term and profitably. In order to successfully shape these sustainable changes, it will not be the famous power of the leader of the past but will only work with the involvement of employees in the new world of work in the knowledge age which is characterized by digitalization and artificial intelligence. This new form of leadership is also referred to as Leadership 2.0 in which it is important to retain top performers and in particular key personnel in the company in the long term which is a very challenging leadership task in HR management. In

change processes a fundamental distinction must be made between incremental change management and radical change management. While incremental change takes place continuously and is integrated into everyday working life, radical change represents a strategic realignment of the company which is largely associated with staff reductions and is intended to change the corporate culture. This is particularly true in the case of restructuring where cost cutting programs play a decisive role in ensuring the long term survival of the company. Employees are more willing to go along with incremental change, also known as continuous improvement, than radical change as they could also be affected by staff cuts. This fuels employees' fears and therefore often leads to high staff turnover.
