A Spectrum of Solutions for Clients with Autism Rachel Bedard, Lorna Hecker, 2020-07-29 This book is a comprehensive resource to guide work with individuals on the autism spectrum. It reflects the true range of needs presented by individuals with autism, pulling together the most salient aspects of treatment with invaluable information from several disciplines synthesized to guide your work. Divided into topical sections with chapters from three field experts in each, this book features contributions from therapists, educators, and medical doctors, as well as financial planners, health advocates, and innovators. The diverse disciplines and backgrounds of each author lend a different voice and perspective to each chapter, reflecting the continuum of care necessary when working with clientele on the autism spectrum and that for clients on the spectrum, one solution does not fit all. For use by psychotherapists, counselors, applied behavioral analysts, occupational therapists, social workers, teachers, and more, this text presents readers with expertise from various contributing disciplines to give them a treatment resource that can inform and guide their daily work with clients on the autism spectrum. **From the Other Side**

of the Bed Frank Mitchell, 2022-08-03 For the first time in my life, I had to fight for it. COVID attacked me, my family, and the world. Being a trauma nurse in the emergency department, I often find myself as do all of my coworkers, meeting people on the worst day of their lives. Now for the first time, I started meeting people during the worst time of mine. This book is written to illustrate how we should be able to fight the devastating effects of this virus together. There is an army that is available to everyone, and every single person can become part of the army that everyone needs in their life. We can focus this army to support one another or to tear us apart because someone thinks differently than we do. This is an age-old problem that continues to face us today, something I call self-righteous indignation. It continues to tear apart our friends, families, and even countries. We need each other's strengths, not each other's opinions. There is a person in that medical bed, someone with family, friends, and a health care team. They need us. They need support. But so do those who are on the outside looking in. I hope this book offers a glimpse into what it was like to be a caregiver who found himself changing from bedside care to needing care from the other side of the bed, and to see how that need extended into my family and friends. **iPhone**
