s now being practiced by thousands of people around the world could perhaps be the simplest approach to creating the life you've always wanted. In 2012 I didn't even know what a morning routine was. I'd drink coffee as soon as I got out of bed, check email early in the morning, and I didn't think twice about it. Then I realized something. A big reason most people aren't successful is they fail to follow a daily routine. Instead, they start each day hoping they will have enough time to make progress on their goals. I used to be a perfect example. But after years of experimenting, I realized what a difference having a morning routine makes. See if you closely examined the world's most successful people, you'd see they start each day in an energized state, ready to accomplish any goal. What's their secret? Like brushing your teeth, once you get in the habit of doing something, it no longer becomes a task; it's just something you do. Successful people are able to focus on their tasks because they already have built habits into their morning. And I want to help you do the same. After reading *The Morning Routine Blueprint*, you will know how to make getting out of bed easy and even fun. Be able to start your day energized, happy, and in a good mood. Learn how to optimize productivity, creativity, and more. Know how to take control of email and not let it affect your time management and productivity. Learn how to journal your way to a stress-free life. Know how to complement your morning routine with the perfect night routine. Are you tired of living a reactive kind of life rather than a proactive life? Do you want to determine how productive your day is? Do you want to find energy and happiness in your day-to-day activities? If you do, then this is the perfect book to read.
