In reader-friendly terms, Susan E. Israel illustrates how to create rich learning environments, provide activities to engage young minds, and promote the important language cognitive and early reading skills necessary to encourage learners' self-confidence. Teachers will find proven practices, assessment tools, guidelines for meeting individual learning needs, examples, advice for professional development sessions, and connections to International Reading Association standards. This book presents essential information for understanding and implementing the core components of an *Early Reading First* program: Designing early childhood programs of excellence, School-parent partnerships, Oral language development, Phonological awareness, Print awareness, Alphabetic knowledge, Early metacognitive thinking, Advocating strong connections between home and school. This accessible text offers teachers, early childhood education specialists, literacy coaches, administrators, and parents the appropriate tools to make a significant positive difference in young children's futures. [Linking Reading Assessment to Instruction](#) Arleen Shearer Mariotti, Susan P. Homan, Arleen P. Shearer, 2005-05-06 This worktext applies current theory to classroom practice by providing in each chapter a brief explanation of major concepts followed by guided practical experience in administering scoring and interpreting reading assessment techniques. Like the popular previous editions, the Fourth Edition emphasizes the use of assessment and diagnosis for instructional decision making rather than for simply giving grades. It stresses the use of informal assessment techniques reflecting the current emphasis in educational assessment theories but also includes coverage of standardized test scores, provides both classroom-tested results and interpretations of the data, giving students step-by-step experience in administering scoring and interpreting assessment techniques and includes numerous hands-on activities. For children to be good readers, they must be taught phonemic awareness, phonics skills, how to read fluently, and how to apply comprehension strategies. *Linking Reading Assessment to Instruction: An Application Worktext for Elementary Classroom Teachers*, Fourth Edition, covers all four areas. This text is designed for undergraduate or graduate reading methods courses that include a diagnosis component, reading diagnosis courses, exceptional education courses, and inservice courses on reading literacy development. Changes in the Fourth Edition: discussion of the text's relationship to the areas of reading proposed by the National Reading Panel Report; phonemic awareness, phonics, fluency, vocabulary, and comprehension; updated Suggested Readings for all chapters; additional references to diagnostic assessments for word analysis skills and spelling stages; additional grouping scenarios; new section on determining a diagnostic path with instructional suggestions relevant to ESOL information added in several places and revised.
