How To Save Money Hamilton Blanza, 2018-10-17 Some people I just don't have money while others have saving accounts full to the brim What is the mind that makes some people spend while others just don't do it How to convert from a rich who can't have a saving until you can boast off Saving money is just as much a skill as anything else You're with a rich type that can save money right? Then go down with that rich type's personality and bring it down and you'll win but surely making money is a different skill The brain is like any other body and the body can't become good at anything For example you don't lose weight by dieting or you don't learn to drive a car in the first time The key to getting started is small and let it ring a very important mindset it is not about making huge savings all the time but in adopting a small routine little by little This principle is the most important thing in adopting a habit of saving money Letting for that 100 dollars put in your saving account will not do the trick especially if you are not a money saver Making a habit of saving even a small amount for the month will help you build a habit which would transform into a big fortune over a period of time You have to train your brain to bring your routine to making a habit And like anything else in life you have to train your mind to learn from your mistakes and persevere to make a habit and part of your routine is doing it fruitful result
