Advances in Communications, Computing, Networks and Security Volume 8 Paul Dowland, Steven Furnell, 2012-06-14

This book is the eighth in a series presenting research papers arising from MSc MRes research projects undertaken by students of the School of Computing and Mathematics at Plymouth University. The publications in this volume are based upon research projects that were undertaken during the 2009/10 academic year. A total of 30 papers are presented covering many aspects of modern networking and communication technology including security, mobility, coding schemes and quality measurement. The expanded topic coverage compared to earlier volumes in this series reflects the broadening of our range of MSc programmes. Specifically contributing programmes are Communications Engineering and Signal Processing, Computer and Information Security, Computer Science, Network Systems Engineering, Robotics and Web Applications Development.

[You Are Here](#) Hiawatha Bray, 2014-04-01 The story of the rise of modern navigation technology from radio location to GPS and the consequent decline of privacy What does it mean to never get lost You Are Here examines the rise of our technologically aided era of navigational omniscience or how we came to know exactly where we are at all times In a sweeping history of the development of location technology in the past century Bray shows how radio signals created to carry telegraph messages were transformed into invisible beacons to guide ships and how a set of rapidly spinning wheels steered submarines beneath the polar ice cap But while most of these technologies were developed for and by the military they are now ubiquitous in our everyday lives Our phones are now smart enough to pinpoint our presence to within a few feet and nosy enough to share that information with governments and corporations Filled with tales of scientists and astronauts inventors and entrepreneurs You Are Here tells the story of how humankind ingeniously solved one of its oldest and toughest problems only to herald a new era in which it's impossible to hide

[Low-tech Magazine 2012-2018](#) Kris De Decker, 2019-03-18 Low tech Magazine underscores the potential of past and often forgotten technologies and how they can inform sustainable energy practices Sometimes past technologies can be copied without any changes More often interesting possibilities arise when older technology is combined with new knowledge and new materials or when past concepts and traditional knowledge are applied to modern technology Inspiration is also to be found in the so called developing world where resource constraints often lead to inventive low tech solutions

Discursive Design Bruce M. Tharp, Stephanie M. Tharp, 2019-02-12 Exploring how design can be used for good prompting self reflection igniting the imagination and affecting positive social change Good design provides solutions to problems It improves our buildings medical equipment clothing and kitchen utensils among other objects But what if design could also improve societal problems by prompting positive ideological change In this book Bruce and Stephanie Tharp survey recent critical design practices and propose a new more inclusive field of socially minded practice discursive design While many consider good design to be unobtrusive intuitive invisible and undemanding intellectually discursive design instead targets the intellect prompting self reflection and igniting the imagination Discursive design derived from discourse expands the boundaries of how we can use design how objects are in effect good's for thinking Discursive Design invites us to see objects in a new light
